## ASSURANCES - NON-CONSTRUCTION PROGRAMS

Public reporting burden for this collection of information is estimated to average 15 minutes per response, including time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding the burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to the Office of Management and Budget, Paperwork Reduction Project (0348-0040), Washington, DC 20503.

**PLEASE DO NOT RETURN YOUR COMPLETED FORM TO THE OFFICE OF MANAGEMENT AND BUDGET. SEND IT TO THE ADDRESS PROVIDED BY THE SPONSORING AGENCY.**

**NOTE:** Certain of these assurances may not be applicable to your project or program. If you have questions, please contact the awarding agency. Further, certain Federal awarding agencies may require applicants to certify to additional assurances. If such is the case, you will be notified.

As the duly authorized representative of the applicant, I certify that the applicant:

- Has the legal authority to apply for Federal assistance and the institutional, managerial and financial capability (including funds sufficient to pay the non-Federal share of project cost) to ensure proper planning, management and completion of the project described in this application.
- Will give the awarding agency, the Comptroller General of the United States and, if appropriate, the State, through any authorized representative, access to and the right to examine all records, books, papers, or documents related to the award; and will establish a proper accounting system in accordance with generally accepted accounting standards or agency directives.
- Will establish safeguards to prohibit employees from using their positions for a purpose that constitutes or presents the appearance of personal or organizational conflict of interest, or personal gain.
- Will initiate and complete the work within the applicable time frame after receipt of approval of the awarding agency.
- Will comply with the Intergovernmental Personnel Act of 1970 (42 U.S.C. §§4728-4763) relating to prescribed standards for merit systems for programs funded under one of the 19 statutes or regulations specified in Appendix A of OPM's Standards for a Merit System of Personnel Administration (5 C.F.R. 900, Subpart F).
- Will comply with all Federal statutes relating to nondiscrimination. These include but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (P.L. 88-352) which prohibits discrimination on the basis of race, color or national origin; (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. §§1681- 1683, and 1685-1686), which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. §794), which prohibits discrimination on the basis of handicaps; (d) the Age Discrimination Act of 1975, as amended (42 U.S.C. §§6101-6107), which prohibits discrimination on the basis of age; (e) the Drug Abuse Office and Treatment Act of 1972 (P.L. 92-255), as amended, relating to nondiscrimination on the basis of drug abuse; (f) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to nondiscrimination on the basis of alcohol abuse or alcoholism; (g) §§523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. §§290 dd-3 and 290 ee- 3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. §§3601 et seq.), as amended, relating to nondiscrimination in the sale, rental or financing of housing; (i) any other nondiscrimination provisions in the specific statute(s) under which application for Federal assistance is being made; and, (j) the requirements of any other nondiscrimination statute(s) which may apply to the application.
- Will comply, or has already complied, with the requirements of Titles II and III of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (P.L. 91-646) which provide for fair and equitable treatment of persons displaced or whose property is acquired as a result of Federal or federally-assisted programs. These requirements apply to all interests in real property acquired for project purposes regardless of Federal participation in purchases.
- Will comply, as applicable, with provisions of the Hatch Act (5 U.S.C. §§1501-1508 and 7324-7328) which limit the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.

9. Will comply, as applicable, with the provisions of the Davis-Bacon Act (40 U.S.C. §§276a to 276a-7), the Copeland Act (40 U.S.C. §276c and 18 U.S.C. §874), and the Contract Work Hours and Safety Standards Act (40 U.S.C. §§327- 333), regarding labor standards for federally-assisted construction subagreements.
10. Will comply, if applicable, with flood insurance purchase requirements of Section 102(a) of the Flood Disaster Protection Act of 1973 (P.L. 93-234) which requires recipients in a special flood hazard area to participate in the program and to purchase flood insurance if the total cost of insurable construction and acquisition is \$10,000 or more.
11. Will comply with environmental standards which may be prescribed pursuant to the following: (a) institution of environmental quality control measures under the National Environmental Policy Act of 1969 (P.L. 91-190) and Executive Order (EO) 11514; (b) notification of violating facilities pursuant to EO 11738; (c) protection of wetlands pursuant to EO 11990; (d) evaluation of flood hazards in floodplains in accordance with EO 11988; (e) assurance of project consistency with the approved State management program developed under the Coastal Zone Management Act of 1972 (16 U.S.C. §§1451 et seq.); (f) conformity of Federal actions to State (Clean Air) Implementation Plans under Section 176(c) of the Clean Air Act of 1955, as amended (42 U.S.C. §§7401 et seq.); (g) protection of underground sources of drinking water under the Safe Drinking Water Act of 1974, as amended (P.L. 93-523); and, (h) protection of endangered species under the Endangered Species Act of 1973, as amended (P.L. 93- 205).
12. Will comply with the Wild and Scenic Rivers Act of 1968 (16 U.S.C. §§1271 et seq.) related to protecting components or potential components of the national wild and scenic rivers system.
13. Will assist the awarding agency in assuring compliance with Section 106 of the National Historic Preservation Act of 1966, as amended (16 U.S.C. §470), EO 11593 (identification and protection of historic properties), and the Archaeological and Historic Preservation Act of 1974 (16 U.S.C. §§469a-1 et seq.).
14. Will comply with P.L. 93-348 regarding the protection of human subjects involved in research, development, and related activities supported by this award of assistance.
15. Will comply with the Laboratory Animal Welfare Act of 1966 (P.L. 89-544, as amended, 7 U.S.C. §§2131 et seq.) pertaining to the care, handling, and treatment of warm blooded animals held for research, teaching, or other activities supported by this award of assistance.
16. Will comply with the Lead-Based Paint Poisoning Prevention Act (42 U.S.C. §§4801 et seq.) which prohibits the use of lead-based paint in construction or rehabilitation of residence structures.
17. Will cause to be performed the required financial and compliance audits in accordance with the Single Audit Act Amendments of 1996 and OMB Circular No. A-133, "Audits of States, Local Governments, and Non-Profit Organizations."
18. Will comply with all applicable requirements of all other Federal laws, executive orders, regulations, and policies governing this program.
19. Will comply with the requirements of Section 106(g) of the Trafficking Victims Protection Act (TVPA) of 2000, as amended (22 U.S.C. 7104) which prohibits grant award recipients or a sub-recipient from (1) Engaging in severe forms of trafficking in persons during the period of time that the award is in effect (2) Procuring a commercial sex act during the period of time that the award is in effect or (3) Using forced labor in the performance of the award or subawards under the award.

Improving Access to Comprehensive Life-Affirming Sexual and Reproductive Health Care

## Project Abstract Summary

### \* Project Summary

To effectively address the increased need for comprehensive life-affirming sexual and reproductive health care services, health education and supportive services, The Obria Group, Inc. and its network of affiliate clinics in California, Oregon, Washington, Iowa, and Georgia proposes to implement 21 new voluntary family planning project sites at each Obria Medical Clinics service area. The main purpose of the project is to effectively eliminate barriers to high-quality, life-affirming sexual and reproductive health care services and serve at least 25,650 low-income and at-risk individuals for poor health outcomes per year. Obria's medical professionals, such as OB/GYNs, nurse practitioners, physician assistants and registered nurses at each Obria Medical Clinic site across the country, will provide the following: 1) neutral, factual information and non-directional counseling to patients, and 2) assessment, diagnosis, screening, education and treatment; referrals; and follow-up of such services. Each Obria Medical Clinic site will provide the following services: pregnancy testing & counseling; natural family planning; STD testing and treatment; STD risk reduction education; HIV/AIDS testing and education; contraceptives education; sexual risk avoidance education; fertility awareness services; breast and cervical cancer education; well-woman care; Pap Smears; UTI testing and treatment; prenatal care; health education; preconception care, supporting services and referrals to needed community services. There will be no preference given to serving anyone based on color, religion, age, sex, marital status, sexual orientation, or the patient's decision regarding their sexual or reproductive health. All services will be provided at no cost to patients below 100% of the federal poverty level.

\* Estimated number of people to be served as a result of the award of this grant. 25650

Application Number: FPH2018008791  
Project Title: Improving Access to Comprehensive Life-Affirming Sexual and  
Reproductive Health Care  
Status: Review in Progress  
Document Title: ProjectNarrativeAttachments\_1\_2-Attachments-1235-Obria Title X.pdf

**1. A clear description of the need for the services provided and a detailed description of the geographic area and population to be served;**

The Obria Group, Inc. and Obria affiliates' target population often experiences significant disparities accessing care, quality education, and other important resources, which are necessary to break the cycle of poverty. As such, they experience lower life expectancy, higher infant mortality, and a higher likelihood of experiencing chronic and communicable diseases and lower quality care. For these reasons, Obria is strongly committed to provide affordable and accessible quality care, health education and support services to vulnerable and low-income women, men and adolescents to enable them to become self-sufficient, break the cycle of poverty, and improve communities. Obria has a strong commitment to address the social determinants of health (education, income, poverty, unemployment, race/ethnicity, etc.) and improve the safety net for vulnerable families and individuals.

According to the National Association of Community Health Centers (NACHC), access to the health care system has worsened in the last years and is challenging for many people, even if they are insured. Although the national, state, and local economies are showing positive signals, barriers of affordability, availability, and accessibility to sexual and reproductive health care services are more daunting than ever. This is particularly true in Obria's service areas in which challenges accessing quality sexual and reproductive health care are as follows:

- a) Lack of health insurance, which is a significant barrier to access culturally and linguistically appropriate quality care;
- b) Lack of providers who speak languages other than English or who accept Medicaid;

- c) Lack of access to sex education, especially for the adolescent population, which results in a disproportionate rate of teen pregnancy. Teen pregnancy is linked to low birth weight and infant mortality;
- d) Higher proportion of expectant mothers who have later or no prenatal care, especially in communities of color;
- e) Because of substance abuse by pregnant women, babies are at risk for developmental, physical, behavioral and social disabilities;
- f) Increase in the incidence of breast cancer and disparities in accessing preventive screenings and treatment. Among communities of color, lack of access to preventive screening and treatment has led to disparities in this health need;
- g) Sexually transmitted diseases have increased its incidence. Sadly, women are more impacted than men and risk is growing among communities of color;
- h) Lastly, the cost of health care can be a barrier for both uninsured and insured individuals.

Obria is committed to improving access to affordable and timely access to high quality health care services, health education and supportive services for low-income and medically disenfranchised women, men and adolescents in a cost-effective and appropriate manner. Obria identifies community needs and develops strategies that are responsive to patients' needs, and represent dramatic reductions in costs and waiting times. Obria serves low-income communities in several locations in California, Georgia, Iowa, Oregon, and Washington, as follows:

**California:**

***Obria Medical Clinics of Southern California, Inc.*** (OMC SoCal) is a 501(c)(3) nonprofit, fully-licensed and AAAHC accredited network of four community health care clinics in Southern

California with clinic locations in Orange, Long Beach, Mission Viejo and a Mobile Clinic. OMC SoCal's three fixed clinic locations and a state-of-the-art mobile clinic play a vital role in the most underserved communities in Southern California. In 2017, OMC SoCal served 2,355 patients through 3,731 medical visits. Of those seen, 86% were below 200% of the federal poverty line; 75% were female; 41.4% were between the ages of 15-24; 41.4% were Hispanic; 26.1 were Caucasian; 12.4% were African American; and 11% were Asian.

According to the Orange County Health Indicators and the 2016 Kaiser Permanente Community Needs Assessment, there has been an upward trend in the prevalence of HIV for Orange County; The incidence of all STDs (HIV, Syphilis, Gonorrhea and Chlamydia) is increasing significantly in line with the state of California. The California Department of Public Health says that more than 250,000 cases of STDs were reported in 2016, a 40 percent increase compared with five years ago. Young people, African-Americans and gay and bisexual men had the highest infection rates. Also, the percentage of women who received prenatal care has decreased since 2004 when it was at 91.7% to 88.3% in 2013; although this was still higher than the percentage in California (82.1%) and the United States (74.1%). In Orange County, the most common types of cancers are breast and cervical but perform better than the state rate.

**Obria Medical Clinics – WPCC** is a 501(c)(3) non-profit, fully-licensed community health care clinic with locations in Whittier and Pasadena, CA. Obria-WPCC has impacted the lives of more than 10,000 vulnerable, uninsured and low-income young people, mostly ages 14-25. Obria-WPCC's two brick-and-mortar clinic locations play a vital role in some of the most underserved and vulnerable communities in Los Angeles County: Whittier and Pasadena. Every year, Obria-WPCC

provides more than 600 medical and support services to approximately 400 unique patients. Of those seen, approximately 99% were below 200% of the federal poverty line.

In addition, according to the Los Angeles Department of Health, the incidence of all STDs (HIV, Syphilis, Gonorrhea and Chlamydia) in Los Angeles is higher than state and national rates. Los Angeles County experienced sharper increases in gonorrhea and congenital syphilis cases than the state as a whole. Chlamydia remains the most common reportable disease in California; it's at its highest level since mandated reporting began in 1990. The highest rates of chlamydia are among young women. The L.A. County Public Health Department says that one reason for the increase in STDs is because more young women are using long-acting reversible contraception, like IUDs to protect themselves against pregnancy, but not against STDs.

***Obria Medical Clinics -RealOptions (OMC-RO)*** is a 501(c)3 non-profit recognized for its quality of care since 1981. OMC-RO has four licensed sexual and reproductive health care clinics serving Santa Clara and Alameda Counties in the San Francisco Bay Area devoted to caring for patients physically, emotionally, and spiritually. Last year OMC-RO served 1,700 low-income and vulnerable patients during 2,894 patient visits to its clinics. Of those seen, more than 90% were below 200% of the federal poverty level.

According to the 2016 Kaiser Permanente Community Health Needs Assessment, sexual health is a health need in Santa Clara County as demonstrated by high incidence rates of HIV among Black and Latino men, as well as male primary and secondary syphilis incidence rates, which are higher than those in California. Women are twice as likely to contract chlamydia, the most common sexually transmitted infection (STI) in Santa Clara County. This health need is likely impacted by low screening rates for HIV (countywide, the percentage of teens and adults ever screened for

HIV is lower than the state average). Over time, the teen birth rate has gradually decline in the county; however, teen births to Latina mothers are six times higher than those to White mothers. Also, on a countywide level, the percentage of women who receive early prenatal care is worse than California overall, with Blacks mothers having the lowest rates. Other socio-economic characteristics and indicators in Obria service areas in California are as follows:

Indicator	Santa Clara County	Orange County	Los Angeles County	California
Percent Uninsured Population	11.7%	17.29%	13%	17.78%
% population living at or below 200% FPL	21.5%	29.49%	18.4%	32%
Unemployment Rate	5.8%	5.2%	6%	7.1%
Percent mother received prenatal care during the 1st trimester	76%	81.7%	81.9%	85.9%
Birth rate for females ages 15-19 years per 1,000	16.8	14.9	22.8	26.5

### **Georgia:**

***Obria Medical Clinics of Gwinnett, Inc's*** (OMC Gwinnett) is a 501(c)(3) nonprofit, fully licensed and Accreditation Association for Ambulatory Health Care (AAAHC) accredited organization. Its dedication to achieving its mission has helped establish itself as a respected leader in Gwinnett and surrounding communities by providing comprehensive sexual and reproductive health care services, health education and supportive services for the most underserved, vulnerable and culturally diverse individuals in the community. In 2017, OMC Gwinnett provided 2,857 services to approximately 975 unique individuals. Of those seen, more than 85% were below 100% of the federal poverty level. This service area has the following socio-economic characteristics and indicators:

Indicator	Gwinnett County	Georgia
Percent Uninsured Population	21.8%	25%
% population living at or below 100% FPL	13.9%	16%
Unemployment Rate	3.9%	4.4%
Percent mother received prenatal care during the 1st trimester	93.5%	92%
Birth rate for females ages 15-19 years per 1,000	7.9	14.4

According to the 2016 Gwinnett health needs assessment, in 2014, there were 11,656 births to Gwinnett County mothers, 8.9 percent of all births in the state of Georgia. Overall, pregnancy and childbirth were the leading cause of hospitalization and the sixth leading cause of emergency department visits. While the infant mortality rate is lower than other Georgia counties, there is an upward trend for infant mortality in Gwinnett County. The teen pregnancy rate is lower in Gwinnett County when compared to the average among Georgia counties and is on a downward trend. Also, with a relatively young population and high number of births every year, promoting healthy lifestyles, raising healthy kids and preventing the spread of communicable diseases is very important. In addition, according to the 2016 Gwinnett HNA, the incidence of all STDs (HIV, Syphilis, Gonorrhea and Chlamydia) in Gwinnet county has increased slightly. The groups with the highest incidence are young people and minorities.

#### **Iowa:**

***Obria Medical Clinics – Informed Choice of Iowa Corporation (Obria-Informed Choices)*** is a 501(c)(3) non-profit that was founded in June of 2007 with the Mission to "Eliminate disparities accessing sexual and reproductive health needs in Iowa" through the business plan of providing superior life-affirming medical clinics, serving men and women across Iowa who are facing a

sexual health crisis such as an unplanned pregnancy or sexually transmitted disease. Obria-Informed Choices has five freestanding AAAHC accredited sexual and reproductive health care clinics and one mobile clinic providing the following services; STD risk assessments with sexual risk avoidance education, STD testing diagnosis and treatment, early prenatal care, family planning education, health education to low-income and vulnerable, and referrals for OB/GYN's, social services and adoption services.

Obria-Informed Choices clinics are located across Iowa: Iowa City, Des Moines, Burlington, Fort Dodge and Ames with the mobile clinic serving Des Moines and rural Iowa. Over the last 10 years Obria-Informed Choices has provided care and education for over 18,500, mostly low-income individuals ages 18-25. Every year, Obria-Informed Choices provides more than 2,655 medical and support services to approximately 1,858 unique patients. Of those seen, approximately 99% were below 200% of the federal poverty line. This service area has the following socio-economic characteristics and indicators:

Indicator	Webster County	Story County	Des Moines County	Johnson County	Iowa
Percent Uninsured Population	5.0%	4.7%	4.8%	5.4%	4.3%
% population living at or below 100% FPL	15.7%	22.3%	16.7%	17.9%	11.9%
Unemployment Rate	3.0%	1.5%	3.1%	2.0%	2.8%
Percent mother received prenatal care during the 1st trimester	82.7%	84.8%	78%	82.4%	78.7%
Birth rate for females ages 15-19 years per 1,000	23.7	4.5	30.9	6.9	16

According to the Iowa Department of Public Health, Bureau of Disease Prevention & Immunization, Iowa Reportable Sexually Transmitted Disease Data, 2011-2015, statewide, teens 15 –19 years account for 22% of chlamydia cases, 18% of gonorrhea cases, and 5% of syphilis

cases. In Iowa, 2,496 people live with HIV/AIDS, and 119 of them are under age 19 (5%). And, despite progress, teens still need age–appropriate, accurate information on sexual risk avoidance and contraception. Most (66%) teen mothers received prenatal care during their first trimester, but 7% had no or late prenatal care. Iowa’s teen birth rate is lower than the U.S. rate, but minority teens have a disproportionately higher teen birth rate compared to the statewide rate.

**Oregon:**

***Obria Medical Clinics - Pregnancy Alternatives Center (OMC-PAC)*** is a 501(c)(3) non-profit, fully-licensed and AAAHC accredited community health care clinic in Lebanon, OR. OMC-PAC’s brick-and-mortar clinic and state-of-the-art mobile clinic play a vital role in the most underserved communities in Linn County. OMC-PAC serves low-income and vulnerable individuals in five different rural locations in Oregon, including Lebanon, Scio, Brownsville, Halsey and Sweet Home. OMC-PAC’s services are provided in a compassionate, inclusive, and non-judgmental manner to all women and men in need of high quality care regardless of their ability to pay, creed, race, sexual orientation, national origin or age. Every year, OMC-PAC provides more than 600 medical services to approximately 400 unique patients. Of those seen, 98% were below 100% of the federal poverty line. This service area has the following socio-economic indicators:

Indicator	Linn County	Oregon
Percent Uninsured Population	11.4%	10%
% population living at or below 100% FPL	19%	17%
Unemployment Rate	4.3%	4.1%
Percent mother received prenatal care during the 1st trimester	87.7%	86.7%
Birth rate for females ages 15-19 years per 1,000	26	17

According to the 2017 Linn County Community Health Needs Assessment, compared to Oregon, women between 18 and 29 in Linn County tend to have a higher fertility rate. Approximately 43 percent of pregnant women in Linn County were served by WIC, as well as 67 percent of all working families in the county. Also, Chlamydia and gonorrhea are the most common STIs in the region. Although Chlamydia and gonorrhea infection rates are lower in Linn County than the state rate, they have been steadily increasing over the past decade. On the other hand, the number of cases of syphilis grew very quickly between 2011 and 2015, from about one case per year to 16 cases in 2015.

#### **Washington:**

***Obria Medical Clinics – Pacific Northwest (Obria-PNW)*** is a fully-licensed and AAAHC accredited, 501(c)(3) non-profit community health care clinic with centers serving rural Western Washington. Founded in 1984, Obria - PNW has offices in Port Angeles, Sequim, and a mobile medical center that serves 6 additional communities – Port Townsend, Forks, Aberdeen/Hoquiam, Bremerton, Olympia, and Longview. Obria-PNW primarily serves underserved families and individuals in these communities with services that include pregnancy testing, obstetrical ultrasounds, community referrals, nutrition and life skills education, and maternal and infant resources. The Obria-PNW education program includes curriculum for prenatal care and development, birthing, and parenting. This program provides court ordered parenting education. This service area has the following socio-economic indicators:

Indicator	Clallam County	Washington
Percent Uninsured Population	7%	7.3%
% population living at or below 100% FPL	23%	11%

Unemployment Rate	5.9%	4.5%
Percent mother received prenatal care during the 1st trimester	76%	80%
Birth rate for females ages 15-19 years per 1,000	26.6	17.3

According to the 2017 Clallam Health Needs Assessment, approximately 3 out of 4 pregnant women in the county started prenatal care in the first trimester in 2015. From 2011 to 2015, mothers of white racial backgrounds and college-educated mothers were more likely to start prenatal care in the first trimester. All other mothers in Clallam were least likely to start prenatal care in the first trimester. Also, in Clallam county there is an average annual increase of 4% in Chlamydia infections since 1992. Women and young adults age 18-34 were more likely to be infected. Although HIV and AIDS rate is lower in Clallam county than Washington State overall, the rate of people living with HIV and AIDS has been increasing since 2011.

**2. Evidence that proposed projects will address the family planning needs of the full population in the service area to be covered;**

The Obria Group, Inc. is a 501(c)3 nonprofit based in Southern California operating under the leadership of Kathleen Eaton Bravo. Kathleen is the founder and CEO of several healthcare initiatives including The Obria Group, Inc. and Obria Medical Clinics of Southern California. Kathleen established Obria Medical Clinics in 1981, one of the largest networks of sexual and reproductive health care clinics in Southern California.

The Obria Group Inc. an umbrella organization under which a network of life-affirming sexual and reproductive health care clinics operates throughout the nation under the brand name Obria Medical Clinics. The Group seeks to do the following: (1) reduce the barriers to sexual and reproductive health care via telemedicine and mobile clinics; (2) replicate comprehensive sexual

and reproductive health care clinics under an affiliation program across the nation; and (3) support and guide Obria affiliates to provide affordable access to sexual and reproductive health care services to low-income individuals who are at high-risk for poor health outcomes.

Since 1981, Obria has worked to strengthen low-income individuals and families to choose healthy lifestyles and become healthier and self-sufficient. Obria is committed to serving women and men in crisis through empowerment and education and fostering hope in situations that feel overwhelmingly hopeless. Obria understands the critical need for high-quality and cost-effective life-affirming sexual and reproductive health services.

Obria's diverse, compassionate and multidisciplinary team of professionals meet people where they are, without judgment, and provide them with the support and information they need in a culturally and linguistically appropriate manner. As a result, Obria's patients are better equipped to choose a better future for themselves and their families.

Through strong collaborations and support from a wide array of agencies and churches in the local communities, Obria's programs improve parent resilience and their ability to address challenges by involving parents and family members as supportive family leaders; increase the knowledge of parenting and child development; build social connections that help parents and immigrants build networks of support; identify victims of human trafficking and sexual abuse; and, provide concrete support and services in times of need.

Most importantly, Obria promotes and designs programs that develop relationships with low-income individuals to help them participate in decisions that positively affect their lives, families and communities. All Obria programs and services were created as a response to a community

need. Obria has a Patient Advisory Board which was specifically organized to easily identify low-income leaders and engage them in the decision-making process of the organization.

To effectively address the increased need for comprehensive sexual and reproductive health care services, health education and supportive services, The Obria Group, Inc. and its network of affiliate clinics in California, Oregon, Washington, Iowa, and Georgia propose to implement 21 “Voluntary Family Planning Project” sites in several service areas to effectively eliminate barriers to high-quality, life-affirming sexual and reproductive health care services and serve annually at least 25,650 low-income and at-risk individuals for poor health outcomes.

Obria’s medical professionals, such as OB/GYNs, nurse practitioners, physician assistants and registered nurses at each Obria clinic location, will also provide both 1) neutral, factual information and nondirectional counseling to patients, and 2) assessment, diagnosis, screening, education and treatment; referrals; and follow-up of such services. Any referrals will be based on the provider’s documented assessment of the patient, indicating the medical necessity for referral(s) to other health-related service.

### **Obria Medical Clinics - Scope of Services**

Each Obria Medical Clinics affiliate across the nation will provide a combination of sexual and reproductive health services to the public according to Title X “Voluntary Family Planning Services Projects” guidelines, including the following:

Pregnancy Testing & Counseling	STI Testing & Treatment	Well-Woman Care
Pregnancy Ultrasound Services	STI Risk Prevention Education	Breast & Cervical Cancer Screening
Prenatal Care	HIV/AIDS Testing & Education	UTI Testing and Treatment
Pregnancy Options Education	Sexual Risk Avoidance Education	Fertility Awareness
Natural Family Planning	Contraception Education	Preconception Services

There will be no preference given to serving anyone based on color, religion, age, sex, marital status, sexual orientation, or the patient's decision regarding their sexual or reproductive health.

Every patient will be treated with dignity and respect, as follows:

- Patients will be given referrals and resources, as needed, for services not offered at Obria, with the exception of abortion healthcare providers. Although referrals are not provided for abortion healthcare providers, Obria will provide neutral, factual information and nondirectional counseling to patients to help them make an informed decision.
- Every patient will be offered confidentiality, except when otherwise required by law
- Obria's staff will provide each patient with support and education so they can make the best health choices for themselves. Obria's staff will make counseling services available to partners and/or parents of the patient, if requested and appropriate.
- Obria's staff will encourage family participation in the decision of minors to seek family planning services, and provide counseling to minors on how to resist attempts to coerce minors into engaging in sexual activities.

**3. Evidence of experience in the particular service area and with the particular community to be served;**

The Obria Group, Inc. is a 501(c)(3) nonprofit and the umbrella organization under which a national affiliate network of fully-licensed, Accreditation Association for Ambulatory Health Care (AAAHC) accredited and life-affirming sexual and reproductive health care clinics operate. The Group is one of the largest networks of affiliated community health care clinics in the nation,

operating as Obria Medical Clinics. The Obria Group, Inc. currently has 36 affiliate clinic locations in California, Iowa, Georgia, Washington, and Oregon.

The Obria Group, Inc. and its affiliates' dedication to achieving its mission helped establish themselves as a respected leader in the community by providing comprehensive sexual and reproductive health care services, health education and supportive services for the most underserved and culturally diverse individuals in the community. Obria services are provided in a compassionate, inclusive, and non-judgmental manner to women and men in need of high quality care regardless of their ability to pay, creed, race, sexual orientation, national origin or age. In 2017, Obria's network of community clinics across the nation served 6,256 patients through 14,422 medical visits. Of those seen, 95% were below 200% of the federal poverty line; 77.7% of Obria patients reported themselves to be female; 41% were between the ages of 15-24; 34.8% were Hispanic; 26.3 % were Caucasian; 12.8% were African American; and 8.6% were Asian. In 2017, Obria's community clinics network had the following deliverables:

<b><i>Total Number of Unique Patients</i></b>	6,256
<b><i>Patient Visits</i></b>	14,422
<b><i>STD Testing and Treatment</i></b>	2,162
<b><i>STD Risk Reduction Education</i></b>	2,162
<b><i>Ultrasound Services</i></b>	2,807
<b><i>Well-woman visits</i></b>	156
<b><i>Parenting Education</i></b>	1,240
<b><i>Prenatal Care</i></b>	955
<b><i>Pregnancy Tests</i></b>	3,771

The Obria Group, Inc. currently has 36 affiliate clinic locations across California, Oregon, Iowa, Georgia, and Washington. As such, it is becoming a viable provider of sexual and reproductive

health care on both local and national levels. Obria's medical model is replicating nationwide based on the following core strategies:

- A) The elimination of barriers to life-affirming care via mobile clinics and telemedicine;
- B) High-quality comprehensive sexual and reproductive health services;
- C) Compassionate care with a holistic approach (mental, physical and social);
- D) Increased mission-sustainability via donors, grants and insurance reimbursements;
- E) Standardized processes and improved operational quality; and
- F) Best practices innovation and sharing (AAAHC accreditation).

The Obria Group, Inc. and Obria affiliates provide the best care, both in terms of treatment and patient experience. Obria's staff respects the rights of patients and want them to understand their responsibility as a partner in their care. Obria's staff strives to provide accurate, factual information about their health care in an environment that maintains dignity. The Obria Group, Inc. and its affiliates have several years of experience providing comprehensive sexual and reproductive health care services to low-income and vulnerable patients, as follows:

**California:**

***Obria Medical Clinics of Southern California, Inc. (OMC SoCal)*** is a 501(c)(3) nonprofit, fully-licensed and AAAHC accredited network of four life-affirming community health care clinics in Southern California with clinic locations in Orange, Long Beach, Mission Viejo and a Mobile Clinic. Since its inception in 1981, OMC SoCal has impacted the lives of more than 250,000 young people, mostly ages 14-25. After becoming fully licensed medical clinics in 2006, OMC SoCal has seen 76,861 patients and made referrals to many of its community partners.

OMC SoCal's three fixed clinic locations and a state-of-the-art mobile clinic play a vital role in the most underserved communities in Southern California. In 2017, OMC SoCal served 2,355 patients through 3,731 medical visits; 696 prenatal care services; 154 well woman visits; 1,102 STD testing and treatment services; 1,102 STD risk reduction education services, among other sexual and reproductive health care services. Of those seen, 85% were below 200% of the federal poverty line; 75% were female; 41.4% were between the ages of 15-24; 41.4% were Hispanic; 26.1 were Caucasian; 12.4% were African American; and 11% were Asian.

**Obria Medical Clinics – WPCC** is a 501(c)(3) non-profit, fully-licensed community health care clinic with locations in Whittier and Pasadena, CA. Obria-WPCC started in 1991 as a small family resource center in Whittier, CA. Since then, and under the leadership of CEO Jeanette Kuiphof, Obria-WPCC has impacted the lives of more than 10,000 vulnerable, uninsured and low-income young people, mostly ages 14-25. Obria-WPCC's two clinic locations play a vital role in some of the most underserved communities in Los Angeles County: Whittier and Pasadena.

Obria-WPCC's services include pregnancy care, pregnancy decision consultations, ultrasound services, STD testing and treatment, STD risk reduction education, post-abortion support, referrals to community partners, and health education to all individuals seeking quality care. WPCC will soon offer Fertility Education & Medical Management (FEMM) fertility awareness, natural planning services, and sexual risk avoidance education. Every year, Obria-WPCC provides more than 600 medical and support services to approximately 400 unique patients. Last year, Obria-WPCC provided more than 225 pregnancy tests; more than 110 STD testing and treatment services and STD risk reduction education. Of those seen, approximately 99% were below 200% of the federal poverty line.

**Obria Medical Clinics -RealOptions (OMC-RO)** is a 501(c)3 non-profit recognized for its quality of care since 1981. OMC-RO has four licensed sexual and reproductive health care clinics serving Santa Clara and Alameda Counties in the San Francisco Bay Area devoted to caring for patients physically and emotionally. OMC-RO strives to be the first-place people go to learn all their options when facing sexual and reproductive health issues. Medical services include lab grade pregnancy testing, STD testing and treatment, STD Risk Reduction Education, Ultrasound Imaging, Prenatal Care, Parenting Education, and Health Education. OMC-RO offer Sexual Risk Avoidance Education for both students and parents in local public and private junior high schools, high schools, and community youth groups. OMC-RO also offers support groups and retreats to people who have been impacted by abortion, miscarriage or pregnancy loss. OMC-RO helps to manage student led support clubs on several local community college and university campuses in their service areas. As more providers are added, OMC-RO will offer additional sexual and reproductive health care services. OMC-RO also offers adoption support services, material support, childbirth & parenting classes, and local agency referrals.

OMC-RO offers a broad spectrum of prevention, intervention and wellness services to the community positively impacting thousands of students and families each year. OMC-RO's purpose is to ensure that women, men, students, and families have a safe place to turn when facing pregnancy decisions, making sexual health choices, and seeking emotional healing from pregnancy loss and abortion-related issues. OMC-RO serves thousands of students and adults by being strategically located, marketing services using a multi-channel program, expanding services to underserved areas through outreach efforts, offering services via Telemedicine technology, and by developing strategic collaborations and partnerships within local communities. Last year

OMC-RO served 1,700 low-income and vulnerable patients during 2,894 patient visits to its clinics; 512 STD testing and treatment services; 512 STD Risk Reduction Education; 1,301 ultrasound services; 259 prenatal care services; 125 sexual risk avoidance education classes in local high schools to more than 3,900 students, among other services.

**Georgia:**

***Obria Medical Clinics of Gwinnett, Inc's*** (OMC Gwinnett) is a 501(c)(3) nonprofit, fully licensed and AAAHC accredited organization. Its dedication to achieving its mission has helped establish itself as a respected leader in Gwinnett and surrounding communities by providing comprehensive sexual and reproductive health care services, health education and supportive services for the most underserved, vulnerable and culturally diverse individuals in the community. OMC Gwinnett's target population often experiences significant disparities accessing health care and a higher likelihood of receiving lower quality care.

OMC Gwinnett is committed to providing critical life-affirming medical services, health education and supportive services to all vulnerable patients seeking quality health care. OMC Gwinnett is committed to improve sexual and reproductive health outcomes for low-income and at-risk pregnant women and increase access to its comprehensive services. It is the belief of the OMC Gwinnett that information equals empowerment. OMC Gwinnett's mission is to empower women and men to make healthy decisions for their body and for their families in low-income communities in Georgia. This can only be done through quality medical services, evidence-based education and options counseling. In addition, our parenting programs will both increase pregnant women's level of knowledge about the importance of early prenatal care and child development, and improve healthy pregnancy among women at risk for poor health outcomes.

In 2017, OMC Gwinnett provided 1,140 pregnancy tests; 239 STD testing and treatment services; STD risk reduction education services; 539 prenatal care services; 183 health education classes; 1,081 adoption consultations; 1,107 parenting education classes; 3,130 sexual risk avoidance education; and 3,414 referrals to community services.

**Iowa:**

***Obria Medical Clinics – Informed Choices*** has five freestanding AAAHC accredited sexual and reproductive health care clinics and one mobile clinic providing the following services; STD risk assessments with sexual risk avoidance education, STD testing diagnosis and treatment, early prenatal care, family planning education, health education to low-income and vulnerable, and referrals for OB/GYN's, social services and adoption services.

Obria-Informed Choices clinics are located across Iowa: Iowa City, Des Moines, Burlington, Fort Dodge and Ames with the mobile clinic serving Des Moines and rural Iowa. Over the last 10 years Obria-Informed Choices has provided care and education for over 18,500 patients, mostly low-income between the ages 18-25. Obria-Informed Choices provides more than 2,655 medical and support services to approximately 1,858 unique patients annually. Of those seen, approximately 99% were below 200% of the federal poverty line. Every year, Obria-Informed Choices provides more than 2,655 medical and support services to approximately 1,858 unique patients. Last year, Obria-Informed Choices provided more than 738 pregnancy tests; 478 ultrasound services; more than 990 STD testing and treatment services and STD risk reduction education services. Of those seen, approximately 99% were below 200% of the federal poverty line.

**Oregon:**

**Obria Medical Clinics - Pregnancy Alternatives Center (OMC-PAC)** is a 501(c)(3) non-profit, fully-licensed and AAAHC accredited community health care clinic in Lebanon, OR. OMC-PAC started in 1990 as a family resource center in a small rural town in Oregon. Since then, and under the leadership of CEO Debbie Tracy and Board of Directors, OMC-PAC has impacted the lives of more than 12,000 vulnerable, uninsured and low-income young people, mostly ages 14-28. OMC-PAC's brick-and-mortar clinic and state-of-the-art mobile clinic play a vital role in the most underserved communities in Linn County. OMC-PAC serves low-income and vulnerable individuals in five different rural locations in Oregon, including Lebanon, Scio, Brownsville, Halsey and Sweet Home. OMC-PAC's services include pregnancy care, pregnancy decision consultations, ultrasound services, care coordination, referrals to community partners, and health education to low-income, vulnerable and underserved individuals in the rural community of Linn County. These services are provided in a compassionate, inclusive, and non-judgmental manner to all women and men in need of high quality care. OMC-PAC's mission is to "provide medical and educational services to equip individuals to make healthy choices related to pregnancy, relationships, and parenting." Every year, OMC-PAC provides more than 600 medical services to approximately 400 unique patients. Last year, OMC-PAC provided more than 300 pregnancy tests; 1,318 sexual risk avoidance education services; 140 ultrasounds services, among other resources and services. Of those seen, 98% were below 100% of the federal poverty line.

**Washington:**

**Obria Medical Clinics Pacific Northwest** is a fully-licensed and AAAHC accredited, 501(c)(3) non-profit community health care clinic with centers serving rural Western Washington. Founded in 1984, Obria - PNW has offices in Port Angeles, Sequim, and a mobile medical center that serves

6 additional communities – Port Townsend, Forks, Aberdeen/Hoquiam, Bremerton, Olympia, and Longview. Obria-PNW primarily serves the underserved families and individuals with services that include pregnancy testing, obstetrical ultrasounds, community referrals, nutrition and life skills education, and maternal and infant resources. The Obria-PNW education program includes curriculum for prenatal care and development, birthing, and parenting. This program provides court ordered parenting education.

**Obria's Commitment to Care:** All Obria's medical and administrative staff receive proper training to uphold these standards across all Obria locations in the country.

- Each patient has the right to decide whether or not to have children and, if so, to determine their timing and spacing.
- Each patient has the right to adequate and objective education and counseling.
- Patients aren't denied access to care due to lack of funds, race, creed, color, national origin, sex, age, sexual orientation, religion or disability.
- Each patient has the right to considerate, respectful and compassionate care, free of judgment or prejudice.
- Each patient has the right to personal privacy and confidentiality and to receive care in a safe environment free from all forms of abuse, neglect, or mistreatment.
- Each patient has the right to participate in the development of their plan of care.
- Each patient has the right to know the results and meanings (diagnosis, treatment and prognosis) of all tests and examinations in terms that they can understand.
- Each patient has right to know effectiveness, possible side effects, and complications of all contraceptives.

- Each patient is entitled to information about rules and regulations affecting their care.
- 4. Evidence that proposed projects have experience in providing clinical health services, are qualified to deliver family planning services, and have the capacity to undertake family planning and related health services required in statute and regulation, including a broad range of acceptable and effective family planning methods, natural family planning methods, infertility services and services for adolescents. A complete list of the family planning methods offered as part of the project should be included. Projects may consist of a single provider or a group of partnering providers who deliver coordinated and comprehensive family planning services. Each project should offer core family planning services as described earlier in this Funding Announcement. Each project must provide the full array of required services under this grant.**

The Obria Group, Inc. and Obria affiliates have a long history of providing sexual and reproductive health care services and developing strategies to improve the health of the population; enhance the patient experience of care (including quality, access, and reliability); and reduce, or control, the overall cost of care in sexual and reproductive health. In addition, most Obria Medical Clinic locations or sites across the country have been already accredited by the Accreditation Association for Ambulatory Health Care (AAAHC) which accredits ambulatory health care organizations. Achieving accreditation by AAAHC is proof that Obria sites have met the rigorous standards of a nationally-recognized third party organization.

In 2017, Obria's network of community health care clinics across the nation served 6,256 patients through 14,422 medical visits. Of those seen, 97% were below 200% of the federal poverty line; 77.7% of Obria patients reported themselves to be female; 41.4% were between the ages of 15-24; 34.8% were Hispanic; 26.3 % were Caucasian; 12.8% were African American; and 8.6% were Asian. In 2017, Obria's community clinics network had the following deliverables:

<b><i>Total Number of Unique Patients</i></b>	6,256
<b><i>Patient Visits</i></b>	14,422
<b><i>STD Testing and Treatment</i></b>	2,162
<b><i>STD Risk Reduction Education</i></b>	2,162

<i>Ultrasound Services</i>	2,807
<i>Well-woman visits</i>	156
<i>Parenting Education</i>	1,240
<i>Prenatal Care</i>	955
<i>Pregnancy Tests</i>	3,771

The ultimate goal of implementing “Voluntary Family Planning Project” sites at each Obria Medical Clinic location (21 in total) across the country is both: 1) to provide the full array of required services under this grant and, 2) to improve access to timely and affordable high quality sexual and reproductive health care services, health education and supportive services for women, men and adolescents at risk for poor health outcomes. Improved access to Obria’s evidence-based services will improve health outcomes and ultimately reduce unnecessary emergency department visits and the need for catastrophic care among vulnerable women, men and adolescents. Obria’s providers and staff, which includes OB/GYNs, nurse practitioners, registered nurses, medical assistants, clinic managers and volunteer physicians have a unique opportunity to identify, intervene and assist individuals in need before communicable diseases manifest themselves. Early identification and intervention increases the likelihood that at-risk women, men and adolescents stay healthy and safe.

Obria’s professionals practice evidence-based medicine using nationally recognized clinical practice guidelines. All 21 proposed Obria “Voluntary Family Planning Project” sites across the nation will provide the following sexual and reproductive health care services:

<b>Pregnancy Testing &amp; Counseling</b>	<b>STI Testing &amp; Treatment</b>	<b>Well-Woman Care</b>
<b>Pregnancy Ultrasound Services</b>	<b>STI Risk Prevention Education</b>	<b>Breast &amp; Cervical Cancer Screening</b>
<b>Prenatal Care</b>	<b>HIV/AIDS Testing &amp; Education</b>	<b>UTI Testing and Treatment</b>
<b>Pregnancy Options Education</b>	<b>Sexual Risk Avoidance Education</b>	<b>Fertility Awareness</b>
<b>Natural Family Planning</b>	<b>Contraception Education</b>	<b>Preconception Services</b>

All Obria sites will adhere to the following family planning services standards:

- A. **Informed Consent:** Patient participation in the project will be voluntary and without coercion. All patients will be required to sign an informed consent form.
- B. **Confidentiality:** All services will be provided in a manner that respects the privacy and dignity of the individual patient. Patients will be informed and assured confidentiality.
- C. **Cultural and Linguistic Competency:** All services will be provided in a culturally sensitive manner and communicated in a language understood by the patient.
- D. **Access to Care:** All services will be provided to eligible clients without bias based upon gender, sexual orientation, age, race, marital status, religion, or disability. Family planning services and family planning-related services will be at no cost to eligible patients. Referrals to local resources will be made available to clients when needed medical and psychosocial services are beyond Obria's scope of services, including, but not limited to, primary care, domestic violence and substance abuse related services.
- E. **Clinical and Preventive Services:** Only licensed personnel with family planning skills, knowledge and competency will provide the full range of family planning medical services. Services will be available to patients onsite or by telehealth:

#### ***Family Planning Services***

- **Contraceptive Services for women and men:**

- a) A comprehensive health history with updates at least every 24 months, including personal medical, sexual and contraceptive history; plans for having children; a complete family history; health risk factors; and obstetrical and gynecological history.
- c) Laboratory tests, including urine pregnancy test, will be provided as clinically indicated in the context of an individual client's medical history, medical conditions and risk factors.
- d) Follow-up care, including management of complications associated with a client's contraceptive method(s) or procedures, will be provided.
- c) Contraceptive education & counseling. Obria patients will be educated on the effectiveness, possible side effects, and complications of all contraceptives. All birth control discussions will be done by a licensed healthcare professional or provider only.
- d) The following contraceptive methods and procedures may be provided onsite: Sexual risk avoidance education and Fertility Education & Medical Management which is a fertility awareness methods and counseling program.
- **Limited fertility services:**
  - a) Health history will be focused on potential causes of infertility including health risk factors; personal medical, sexual and contraceptive history; and a family history.
  - b) A physical examination related to fertility may be performed as clinically indicated.
  - c) Instruction in the use of supplies (for example, basal body temperature thermometer) may be provided as requested.

d) Fertility Education & Medical Management (FEMM): All Obria clinics will provide FEMM services onsite or via telehealth. The program is a fertility awareness method and counseling program. This program includes both 1) teaching women to understand their bodies and how to recognize hormonal and other vital signs of health; and 2) provide accurate medical testing and treatment based on evidence-based medical protocols, including wellness checks and Pap Smears. FEMM Medical Protocols that assess over 10 hormones, a woman's clinical history, and cycle data, to diagnose and treat the underlying causes of symptoms. The program also includes teaching men to better understand women's bodies so that they can fully support the health of the women in their live.

- **Specified reproductive health screening tests (Screening for STDs/STIs onsite, including Chlamydia, Gonorrhea, HIV and Syphilis.):**

a) All Obria clinic locations will provide specified Reproductive Health Screening Tests or screening for STDs/STIs onsite. The reproductive health screening tests for women and men, when clinically indicated, will include: Chlamydia, Gonorrhea, HIV and Syphilis. Prevention and control services will be consistent with the Centers for Disease Control and Prevention (CDC) and recognized medical practice standards. Services will include:

- i. Chlamydia screening annually for females 25 years of age and younger.
- ii. Confidential HIV risk screening, testing or referral to source of anonymous testing, client-centered counseling and referral for treatment.
- iii. Reporting of STI/HIV, as required by law, to appropriate local public health jurisdictions for contact management, prevention and control.

### ***Family Planning-Related Services***

#### **1. Breast and Cervical Cancer Screening**

- a) Obria clinics will provide screening for breast and cervical cancer when the care is provided coincident to a visit for the management of a family planning method. Breast and cervical cancer screening visits will be offered every three years, unless otherwise indicated by the patient's health status.
- b) Each client will be informed of the breast and cervical cancer screening interval that applies to the patient's individual circumstances as recommended.
- c) Providers will have a follow up mechanism for all cervical cytology specimens to ensure that all results are evaluated and patients with cytological abnormalities are notified.

#### **2. Management of STDs/STIs**

- a) Obria patients treated for Gonorrhea, Chlamydia, trichomonas and Syphilis will have arrangements made for repeat testing in accordance with CDC guidelines.
- b) For Obria patients treated for gonorrhea or Chlamydia, the need for partner therapy will be addressed.

#### **3. Management of UTIs**

- a) Care will be provided coincident to a visit for the management of a family planning method.

b) A detailed history, and physical examination as clinically indicated, will be performed onsite to differentiate uncomplicated lower UTIs (acute bacterial cystitis) from complicated urinary tract infections. Medications to treat UTIs will be available by prescription.

**F. Education and Counseling Services:**

1. Family planning and reproductive health education and counseling services will be provided for women and men to clarify personal family planning goals and to promote optimal reproductive health will include an individual client assessment and ongoing reassessment of the client's reproductive health education and counseling needs, including:

- a) A description of services and clinic procedures
- b) The full range of contraceptive method options
- c) Reproductive life plan and preconception health
- d) STI/HIV transmission and prevention

2. Individual education and counseling sessions will be provided in a way that is understandable to the client and conducted in a manner that facilitates the patient's integration of information for the development of positive reproductive health behaviors. Counseling and education services will be supplemented with written materials, as needed.

3. Information will be provided in a manner of communication that is sensitive to diverse cultural and socioeconomic factors and the psychosocial aspects of reproductive health, including partner relationship and communication, long term family planning in regard to number of children desired and spacing of children, risk reduction and decision-making.

4. Written information about the scope of program services, how to obtain needed referrals, services for family planning related complications and where to obtain 24-hour emergency care services will be provided.
5. The option of including a patient's partner in the education and counseling session and other services will be at the patient's discretion. Obria will make every effort to include women and men in the education and counseling services.
6. Obria believes that women who are or may be pregnant have a right to know all their options before deciding about the outcome of their pregnancy. Obria staff will provide pregnancy options education to all pregnant patients as appropriate to the patient's situation and needs.

#### **Family Planning Education Services**

Education and counseling about contraceptives or limited fertility services and referral resources, whether a pregnancy test is positive or negative, will be provided in an unbiased manner that allows the patient full freedom of choice except for abortion services.

##### **1. Contraceptive Education Services**

Each patient will be provided with adequate information to make an informed choice about contraceptive methods, including:

- a) A verbal dialogue and written description of the full range of FDA-approved contraceptive methods, including effectiveness, duration, side effects, complications, medical indications and contraindications, social and physical advantages and disadvantages.

- b) A description of the implications and consequences of sterilization procedures, when client desires no future childbearing.
- c) The opportunity for questions or concerns related to contraceptive methods.

## **2. Limited Fertility Education Services**

Each patient will be counseled in the use of Fertility Education & Medical Management (FEMM) to achieve or delay pregnancy and in the use of supplies to evaluate the fertile period. Patients who are seeking pregnancy will be provided preconception health counseling particularly regarding folic acid intake, taking control and choosing healthy habits, being healthy, and planning for the future. Obria will also address risk behaviors such as alcohol and drug use, multiple sexual partners, and intimate partner or interpersonal violence.

## **3. Specified Reproductive Health Screening Tests Education Services**

Each patient will be counseled regarding a recommended interval for periodic reproductive health screening tests based on national guidelines.

### **Family Planning-Related Education Services.**

#### **1. Breast and Cervical Cancer Screening**

Each patient will be counseled regarding a recommended interval for periodic breast and cervical cancer screening visits based on national guidelines.

#### **2. Management of STIs**

- a) Patients will be advised of their diagnosis, the need for partner testing and/or treatment and methods to prevent recurrent infection.
- b) Patients treated for gonorrhea or chlamydia will be counseled regarding the importance of repeat testing in three months.
- c) Patients will be counseled regarding the importance of completing prescribed therapy.

### **3. Management of UTIs**

Patients treated for UTI will be counseled regarding the importance of completing treatment and the prevention of reinfections.

### **4. Sexual Risk Avoidance Education for Adolescents**

All Obria affiliates will implement the REAL (Relationship Education and Leadership) Essentials Curriculum which is an innovative and evidence-based approach to imparting relationship development skills. The curriculum has also been evaluated. It builds on existing evidence in the field of whole child health, optimal wellness and pregnancy prevention by:

- 1. Keeping sex positive and teaching toward something of greater reward and satisfaction rather than teaching away from consequences. Adolescent brain research indicates that teens respond better to reward rather than to consequences.
- 2. Aligning the program with the National Health Education Standards.
- 3. Including the common themes that are in many state's health education standards.
- 4. Including the 17 characteristics of effective programs.

5. Aligning with the common themes in the literature that builds protective factors in youth outlined in the CDC / Center for Relationship Education SMARTool which is a curriculum analysis tool.

6. Aligning with many state regulatory and legislative policies for sexual health.

7. Aligning with the criteria for age-appropriate messaging and cognitive development.

8. Basing concepts in program on sound theoretical frameworks for child pedagogy and educational best practices.

9. Dedicated to experiential and engaging activity-based learning.

**5. Fertility Education & Medical Management (FEMM):** This program includes both 1) teaching women to understand their bodies and how to recognize hormonal and other vital signs of health; and 2) provide accurate medical testing and treatment based on evidence-based medical protocols, including wellness checks and Pap Smears. The program also includes teaching men to better understand women's bodies so that they can fully support the health of the women in their live, and sexual education and reproductive health education for both teens and adults.

**6. Obria Telemedicine Platform:** Obria's target demographic – young people ages 12-30 who are at high-risk or currently engaging in risky sexual behavior – are among the most digitally savvy market segment in generations. Their circle of influence centers on social media and they are increasingly looking for online access to healthcare resources.

Telemedicine in the context of sexual and reproductive health care is essentially eliminate barriers to quality care: creating an 'online clinic' allows patients to instantly connect with a live

Obria nurse. Our goal is to pro-actively market and find at risk patients while they are engaging in sexual health-related at-risk online behavior (through smartphone apps and social media) and instantly connect them to an Obria medical professional. An Obria medical professional will provide online counseling regarding sexual and reproductive health care and direct the patient for continued care at the closest brick-and-mortar Obria clinic.

- 5. Evidence of familiarity with, and ability to provide services that include the following:**
- **family planning and related health issues;**
  - **services that are consistent with standards of care related to family planning, adolescent health, and general preventive health measures for HIV, STDs, etc.;**

The Obria Group, Inc. and its affiliates across the nation have been providing sexual and reproductive medical services, health education, and support services for more than 20 years to all women, men and adolescents in need of high-quality care regardless of their ability to pay, national origin, age, gender, immigration status, or religion. Obria is committed to serving women and men in crisis—empowerment and education—and fostering hope in situations that feel overwhelmingly hopeless. Obria has been working to strengthen and help low-income individuals and families become healthier and self-sufficient by helping them to access high-quality sexual and reproductive health care and engage in healthy lifestyles. All Obria Medical Clinics locations across the country are licensed and AAAHC accredited. Also, all clinics have CLIA certificates of waiver provided by the Centers for Medicaid Services that certifies the provision of quality laboratory testing. All Obria affiliates are staffed with physicians or medical directors, nurse practitioners, registered nurses, medical assistants and health coordinators. Obria has more than 20 years of experience providing high-quality sexual and reproductive health care services, as follows:

## **1. Contraceptive Services:**

**Birth Control:** All birth control discussions are provided by a licensed healthcare professional. In 2017, Obria provided more than 6,000 birth control education sessions for women, men and adolescents. A healthcare provider emphasizes the value of abstinence in a context which is relevant to and generated by the patient's own value system and future plans. Potential health issues related to birth control are addressed with all patients. Visits also include:

- a) A comprehensive health history, including personal medical, sexual and contraceptive history; plans for having children; family history; health risk factors; and OB/GYN history.
- c) Laboratory tests, including urine pregnancy test, is provided as clinically indicated in the context of an individual client's medical history, medical conditions and risk factors.
- d) Follow-up care, including management of complications associated with a client's contraceptive method(s) or procedures, is provided.
- c) Contraceptive education & counseling. Obria patients are educated on the effectiveness, possible side effects, and complications of all contraceptives.

## **2. Reproductive Health Screening Tests:**

**STD/STI Testing:** Obria provides Chlamydia, Gonorrhea, Syphilis, and HIV testing to patients as per Center for Disease Control's (CDC) guidelines. Samples are collected based on CDC guidelines and sent to a licensed laboratory. In 2017, Obria provided more than 2,100 STD/STI testing and treatment services to low-income women, men and adolescents. Also, all sexually active female patients are encouraged to have a complete gynecological exam. UTI testing is offered as well if

symptomatic and Chlamydia and Gonorrhea results are negative. Patients who are experiencing serious symptoms are given referrals to a specialist.

- A) **STDs/STIs Testing and Education:** The patient is educated on: a) rationale for STD/STI tests; b) specimen collection; c) procedures for reporting results to patients; d) the potential for mandatory reporting; e) the plan of care if he or she has a positive or reactive test result; f) and, the prevention of STD/STIs with emphasis on abstinence, prevention of high-risk behaviors, and risks of using “safe sex” methods, per CDC’s guidelines.
- B) **Urine Chlamydia and Gonorrhea Testing:** Once all samples are collected, the specimen is disposed of properly.
- C) **HIV and Syphilis Blood Testing:** Blood is collected by venipuncture and sent to the laboratory. Universal precautions are utilized and needles are properly disposed of.

**STD/STI Results and Education:**

A healthcare provider signs off on all STD/STI results and put in the patient’s medical record and make available to patients by phone or patient portal. Positive HIV tests are reported only to the patient by an Obria healthcare provider and the proper referrals are given, including the local Department of Public Health for further evaluation and treatment. Patients with a positive/reactive STD/STI test are encouraged and educated per the CDC guidelines about the importance of informing their sexual partners of their exposure to an STD/STI. Education on the prevention of STD/STIs (with emphasis on abstinence) and prevention of high- risk behaviors methods are reviewed with the patient. Positive STD/STIs cases are reported to the local county DPH via a “Confidential Morbidity Report”.

**HIV Testing:** It is the policy of Obria to educate patients who request HIV testing on whether or not to have a blood test.

**HIV Education:** Patients are educated by Obria's medical professionals about HIV as follows: High risk behaviors, history of HIV, exposure for to HIV, and treatment methods.

**STDs/STIs Education:** Education and testing for STD/STIs is offered to patients. In 2017, Obria provided more than 2,100 risk reduction education services to STD patients. Health professionals familiar with data pertaining to STDs /STIs and whom able to utilize decision-making communication skills help patients review their life choices and share STD/STI resources as appropriate.

**STD/STI Treatment:** For the patient tested positive for STDs/STIs, treatment is provided per the clinic's protocols, medical director's standing orders and in congruence with CDC's guidelines. Treatment may include dispensing medication in clinic or a prescription to a pharmacy of the patient's choice sent via EHR, telephoned in, or a written prescription.

**Test of Cure (TOC):** For positive result of an STD/STI: When a patient has tested positive for an STD and after he or she has received treatment, Obria schedules him/her in an appropriate timeframe per CDC guidelines for a test of cure (TOC) to confirm that the test result is negative or non-reactive for the same STD/STI.

Obria adheres to state laws and complete a Confidential Morbidity Report (CMR) to report STDs/STIs found to be contagious, infectious, communicable and dangerous to the public, including chlamydia, gonorrhea, syphilis, hepatitis, HIV, PID, hepatitis B, hepatitis C, and Non-

Gonococcal urethritis. Reactive HIV tests are reported according to guidelines specified by state law to the county Public Health Department's HIV/AIDS Surveillance and Monitoring Program.

### **3. Family Planning-Related Services:**

**Prenatal Care:** In 2017, Obria provided more than 900 prenatal care visits to pregnant patients.

Obria provides prenatal care services to patients according to ACOG guidelines:

- a) Patient has obtained a positive pregnancy test result;
- b) Patient has had a conclusive limited obstetrical ultrasound from the staff to determine viability of fetus and to confirm EDD;
- c) Patient is not currently experiencing symptoms of miscarriage.
- d) A registered nurse offers to sign the patient up for temporary insurance, if eligible;

**Prenatal vitamins:** To improve birth weight and other birth outcomes, Obria's medical staff ensures the safe and effective distribution of prenatal vitamins at no cost for all pregnant patients. The procedure is recorded in patient's medical record.

**Prenatal Education:** Patients are offered education regarding the importance of prenatal care and information about nutrition, fetal development and other topics related to pregnancy via verbal explanations, literature, and visual aids if necessary and appropriate, as follows:

- a. Prevention: Pregnancy and sexually transmitted diseases, medical or physical complications, and miscarriage and ectopic precautions.
- b. Therapeutic: Comfort measures related to pregnancy, symptoms that require immediate medical attention, risk factors and interventions.

- c. Health Maintenance: Prenatal care, anti-smoking and substance abuse information if indicated, nutrition and exercise and prenatal development.

**Pregnancy Testing:** In 2017 Obria Medical Clinics performed almost 4,000 pregnancy tests. It is the policy of Obria to perform pregnancy tests in accordance with all federal and state applicable laws and standards. A pregnancy test is done using blood or urine.

**Ultrasound Examination:** In 2017, Obria performed more than 2,800 ultrasound services. All limited ultrasound exams are prescribed according to American Institute of Ultrasound in Medicine (AIUM), American College of Obstetricians and Gynecologists (ACOG), and American College of Radiology (ACR) guidelines. Ultrasound examinations are provided by a healthcare provider, ultrasound trained registered nurse, or RDMS. All ultrasound exams are documented on the patient's medical record by a radiologist within 48 hours.

**Cervical HPV Detection, Clinical Management and Prevention:** Obria screens for the presence of cervical human papillomavirus (HPV) by Pap smear according to protocols approved by the Medical Director. Education include indications and recommendations for the HPV vaccine. In 2017, Obria provided more than 200 Pap Smear exams. Care is provided according to the (American Society for Colposcopy and Cervical Pathology) 2012 guideline algorithms. All Pap smears are logged in the OB/GYN Lab Testing Log. All abnormal Pap smears are reviewed and patient are contacted within 48 hours of receipt.

**HPV Prevention:** Education about HPV (Gardasil) vaccine is provided to patients. The vaccine is administered through a series of three intramuscular injections over a six-month period. Parents may be encouraged to vaccinate their pre-adolescent due epidemic proportions of HPV.

**HPV Holistic Approach:** It is the policy of Obria to educate for HPV prevention, as follows: 1) abstinence of both male and female until marriage is the only guaranteed protection; 2) for adolescent patients, parents/guardians are kept in consultation with the healthcare provider to help decide if the parent desires to vaccinate their child with the Gardasil regimen for HPV prevention; and 3) educate parents and adolescents for informed decisions.

**Pregnancy Options Education:** Obria believes that women who are or may become pregnant have a right to know all their options before deciding about the outcome of their pregnancy. In 2017, Obria provides more than 3,700 pregnancy options consultations. Obria staff provides pregnancy options education to all pregnant patients as appropriate to the patient's situation and needs.

1. The medical professional works through the Patient Decision Guide and Scale with the patient and explore conflicting answers if/where they exist.
2. If the test is positive, the patient is offered services such as prenatal development, prenatal care, limited obstetric ultrasounds, abortion information, parenting, and adoption information where/when appropriate. All information with medical content is provided and discussed by healthcare professionals only.

**Abortion Information:** Patients considering abortion receive information to empower patients to make an informed decision. For the patient considering abortion, abortion information is reviewed with the patient by healthcare professionals.

**Holistic Approach to Care:** It is the policy of Obria to provide each patient with the best care possible utilizing integrative medicine to addresses the patient's full range of health: physical,

emotional, and spiritual. Obria understands the importance of each component affecting the patient's current and future healthcare needs. Each patient is treated with integrity and respect, regardless of religion, race, income, etc. Each Obria patient is assessed by a licensed healthcare professional to address physical issues (e.g. pregnancy, STD concerns, etc.), emotional issues (e.g. fear, excitement, etc.), and social issues (e.g. internal conflict, faith, etc.). Obria educates staff annually on how assisting patients holistically, understanding a patient's unique set of circumstances and addressing the full range of physical, emotional, spiritual and environmental influences that affect a patient's health and wellbeing.

**Adoption Information:** Patients are provided adoption resources as appropriate to them about pregnancy options. Staff is trained to effectively present adoption as a positive option, if the patient states adoption as a consideration. Adoption resources are provided in an effective manner and appropriate and sensitive to the patient.

**Sexual and Reproductive Health Education:** All patients are offered factual health education appropriate to their situations, needs, and intentions. Information is delivered on fetal development, abortion, prenatal care, nutrition, STDs, and other topics related to sexual and reproductive health via verbal explanations, literature and visual aids. The educational needs of the patient are assessed by the healthcare professional working with the patient. Education is given to the patient in the areas of:

- a. Prevention: Pregnancy, sexually transmitted diseases, abortion, abstinence and medical or physical complications

b. Therapeutic: Comfort measures related to pregnancy, symptoms that require immediate medical attention, risk factors and interventions.

c. Health Maintenance: Prenatal care, anti-smoking and substance abuse information, nutrition and exercise, pre-natal development, and the physical and emotional complications of engaging in risky sexual behavior and abortion.

- **compliance with State laws applicable in the proposed service area requiring notification or the reporting of child abuse, child molestation, sexual abuse, rape, intimate partner violence, human trafficking, or incest;**

It is the policy of Obria to be responsive to the physical and psychological needs of our patients and to assist them in obtaining the appropriate resources corresponding to their specific needs.

Obria is obligated to follow the laws of the state in which it operates regarding the reporting of suspected cases of abuse (sexual, physical, emotional, and mental) and neglect of patients and those associated with patients. All Obria staff is adequately trained within 30 days of employment and retrained annually on how to identify victims of any type of abuse. Obria's reporting policy has the following objectives:

- To be able to recognize and identify victims of abuse
- To understand what needs to be done to comply with the local laws
- To provide written documentation of any suspected or alleged patients who are victims of abuse or neglect, elder abuse, and/or victims of domestic violence
- To assist patients who may be dealing with abuse, neglect or domestic violence by referring them to the appropriate agencies or organizations

Also, sexual abuse is suspected if the following is observed:

- A minor 14 and under reports sexual activity
- Sexual activity with a parent or family member
- A pregnant girl under 18 who is evasive about her partner

Obria's staff is trained and knowledgeable of Child Protective Services Guidelines within their state. It is also the responsibility of Obria to post a Sexual Abuse Reporting Requirements Age Chart. Obria's personnel are mandated reporters in situations involving sexual assault or domestic violence. Any abuse complaint must be initiated by or verbally mentioned by the victim.

**Child Abuse Reporting:** Obria's personnel are mandated reporters in situations involving sexual assault or domestic violence. Any abuse complaint must be initiated by or verbally mentioned by the victim. The police are called in instances of sexual assault, and the individual should be advised to go to a local emergency room. If there is any suspicion of child abuse or neglect, Child Protective Services is contacted to inquire. Child abuse or neglect is suspected if the following is observed:

- Any unexplained injury or bruising with improbable explanations
- Venereal disease of the eyes, mouth, anus or genitals of a child
- A pregnant girl under 18 is evasive about her partner
- Statements about sexual activity with parent or family member
- A minor under 14 reporting sexual activity

- Sexual activity between a minor and a partner more than 4 year older

If a minor patient reports abuse to an Obria employee, the employee is required to report suspected child abuse to authorities. If there is reasonable suspicion that a minor has been abused, Obria staff informs the Clinic Manager, Staff Registered Nurse or senior Staff Registered Nurse (or designee) and assist her/him as necessary.

- if imminent danger or abuse is possible, the proper law enforcement authorities are immediately notified. Effort is made to encourage the patient to talk with police at the clinic.
- Staff immediately reports to the Clinic Manager any suspicion or allegation of abuse or neglect of the patient, a sibling or child of the patient. A report is made by the Clinic Manager.
- An immediate report is made by calling Child Abuse Registry 24-hour hotline. A written report is completed. The written report is submitted within two days.
- A copy of the completed reporting form is placed in the patient's medical record.
- Any patient who is under 14 and he or she reports that they have been sexually active, the Clinic Manager contact the local CPS to inquire if an official report should be completed.

**Adult Abuse Reporting:** Since Obria sees a population significantly at risk of domestic violence and intimate partner violence, a procedure was established to screen and identify spousal/partner abuse and sexual abuse among our patients. Obria is obligated to report known or suspected cases of abuse (sexual, physical and mental) and neglect of patients and those associated with patients in compliance with state law and within the required time period.

- During the patient intake, staff observes the patient's behavior and physical appearance for evidence of abuse.
- All of Obria's medical history forms include a question directly inquiring about abuse.
- If a patient reports abuse to an Obria employee, the patient is informed that we are required to report abuse to the authorities.
- The healthcare professional is to complete the Adult Abuse Reporting Form from the agency; a telephone report will be made to law enforcement immediately.
- A referral list of private and public community resources that provide or arrange for the evaluation, counseling and care of persons experiencing abuse is given.
- The patient's experience is documented on the patient's medical record.
- **counseling techniques that encourage family participation in the decision of minors to seek family planning services, and incorporate resistance skills for minors to resist/avoid exploitation and/or sexual coercion; and**
- **counseling techniques that encourage family participation for all clients, including the involvement of parents, spouses or family where practicable, mindful of the health, safety, and best interest of the client.**

Obria will utilize The Center for Relationship Education REAL (Relationship Education and Leadership) Essentials curriculum to meet the needs of youth and families through telehealth, presentations and one-to-one meetings called "Relationship Coaching," for parents, youth, and young adults. Each counseling session will impart age-appropriate information and skills to equip families with the techniques that encourage family participation in decision-making towards

sexual risk avoidance and healthy relationship education as part of their family planning services. These presentations will be provided to schools, colleges, community groups, faith communities, and in all Obria clinic sites. The lessons are age-appropriate, and science based. The concepts are clear and concrete, aligning with the development of the teenage brain.

Starting Point 4th-8th grade	REAL Essentials Advance 8-12th grade	REAL Essentials Life for Young Adults	Real Essentials Health
Learning about yourself and others Healthy friendship development Understanding cultural influences Skills for communication and decision making Goal setting for the future Puberty science Manners and etiquette Grooming Character development	Learning about yourself and others Navigating differences Effective communication strategies Friendship, dating, and love Understanding cultural influences Planning for the future Commitment Success sequence Conflict resolution Decision Making Overcoming obstacles Leadership and job readiness Health benefits of marriage Sexual health	Self-discovery Skills for communication and decision making Safe dating strategies Consent Steps of intimacy Love Commitment and Marriage Family formation Future vision and planning	REAL Essentials Health helps connect a client's sexual behavior patterns with the condition of his or her heart. It expands the dialogue to supplement the medical information with healthy relationship skills.

The Relationship Coaching sessions in the clinical setting will utilize the REAL Essentials Health curriculum. It addresses a variety of science -based components for life and love skills for adolescents and adults. Designed for medical centers and health clinics it captivates and engages clients with issues of the heart while imparting the skills necessary for healthy romantic and

family attachments. During the coaching sessions, trained and certified facilitators will work with clients to design a plan of action to increase their physical, intellectual, emotional, social and financial health while helping them connect to social supports and additional services as needed.

One-to-one Relationship Coaching will be provided to parents as well as with their children creating a two-generation approach. Equipping parents with science-based and practical tools to increase the health, safety, and well-being of their child/children is of paramount importance. They will also be encouraged, cared for and supported continuously through these coaching sessions. Through this program, Obria will encourage family participation in the decision of minors to seek family planning services, and provide counseling to minors on how to resist attempts to coerce minors into engaging in sexual activities. If clients require additional support, mental health or legal services for sexual exploitation or coercion, or intimate partner violence referrals will be made.

**6. For the proposed schedule of discounts provided in the Appendices, a description of how the schedule of discounts was developed; or for applicants with multiple subrecipients, a policy that is applicable to sub-recipients which meets the criteria set out in the Title X regulations at 42 CFR §59.5(a)(7)-(9).**

The Obria Group, Inc. has written policies regarding the implementation of a fee schedule, sliding fee discount program and health insurance reimbursement to increase Obria's financial sustainability. The policies established a below-market fee schedule and a flexible payment plan for Obria's patients. It is also the policy of Obria to provide essential sexual and reproductive health care services regardless of the patient's ability to pay.

According to the policies, discounts (honored for six months) are offered to all patients based upon household income and size. A sliding fee schedule is used to calculate the basic discount and is updated each year using the federal poverty guidelines. A completed application including required documentation is on file and approved by Obria before a discount is granted. Adolescent patients seeking confidential care are exempt from the application process.

Obria's discount program is designed to provide free or discounted care to those who have no means, or limited means, to pay for their medical services. In addition to quality healthcare, patients are entitled to financial counseling. The Obria employee's role is that of patient advocate, one who works with the patient to find reasonable payment alternatives.

Obria charges persons receiving medical services at the usual and customary Medicaid and market rates prevailing in their service areas. Medical services are provided at no charge, or at a reduced charge, to persons unable to pay for services. It is the policy of The Obria Group, Inc. and Obria affiliates that those with incomes at or below 100% of poverty will receive a full 100% discount. Those with incomes above 100% of poverty, but at or below 200% of poverty, will be charged according to Obria's sliding fee schedule.

**7. Evidence that the proposed services are consistent with the Title X statute, as well as the program regulations, and regulations regarding sterilization of persons in federally assisted family planning services projects, and legislative mandates, as applicable;**

It is the policy of The Obria Group, Inc. and Obria affiliates to provide essential sexual and reproductive health care services consistent with the Title X statute and program regulations.

The Obria Group, Inc. and Obria affiliates will implement policies and procedures that are

consistent with the major provisions of the Title X of the Public Health Service Act, 42 U.S.C. 300, et seq., as follows:

**Clinical Services:** Obria will establish and operate of voluntary family planning projects which provide a broad range of acceptable and effective family planning methods and related preventive health services that include natural family planning methods, infertility services, and services for adolescents; breast and cervical cancer screening and prevention services that correspond with nationally recognized standards of care; STD/STI and HIV prevention education, counseling, testing, and referral; adolescent abstinence counseling; and other preventive health services. Obria will not provide abortion as a method of family planning or give referrals.

**Training:** Obria will provide training for personnel working in family planning services projects. The purpose of this training is to promote and improve the delivery of family planning services.

**Information and Education:** Obria will provide for the development and dissemination of informational and educational materials including the Obria website and the Title X family planning clinic locator database.

**The Prohibition of Abortion:** None of the funds allocated to Obria will be used in programs where abortion is a method of family planning. In addition, Obria will implement the following policies regarding sterilization of persons:

- (a) The individual is at least 21 years old at the time consent is obtained.
- (b) The individual is not a mentally incompetent individual.
- (c) The individual has voluntarily given his or her informed consent.

(d) At least 30 days but not more than 180 days have passed between the date of informed consent and the date of the sterilization. An individual may consent to be sterilized at the time of premature delivery or emergency abdominal surgery, if at least 72 hours have passed after he or she gave informed consent to sterilization. In the case of premature delivery, the informed consent must have been given at least 30 days before the expected date of delivery.

**8. Evidence that Title X funds will not be used in programs where abortion is a method of family planning;**

The Obria Group, Inc. and Obria affiliates are committed to high standards and compliance with all applicable laws and regulations regarding the provision of high quality health care services and the implementation of Title X voluntary family planning projects.

The Obria Group, Inc. and its affiliates will be in full compliance with Section 1008 of the Title X statute and 42 CFR 59.5(a)(5), which prohibit abortion as well as the administration of drugs and devices, including administration of the combination of RU-486 (Mifepristone or Mifeprex) and Misoprostol, as a method of family planning. Obria has policies as follows:

1. Written policies that abortion is not provided as a method of family planning.
2. Written policies that clearly indicate that none of the funds will be used in programs where abortion is a method of family planning.
3. Financial documentation demonstrates that Title X funds are not being used for abortion services and adequate separation exists between Title X and non-Title X activities.

Obria's medical professionals won't provide abortions or take any further affirmative action (such as negotiating a fee reduction, making an appointment, providing transportation) to secure

abortion services for the patient. Obria's staff won't coerce any person not to undergo an abortion by threatening such person with the loss of, or disqualification for the receipt of, any benefit or other services, consistent with guidelines to provide only neutral, factual information and nondirective options counseling.

Obria medical professionals providing options counseling services will offer any pregnant women the opportunity to be provided information and counseling regarding each of the following options: a) Prenatal care and delivery; b) Infant care, foster care, or adoption; and c) Pregnancy termination and risks associated with abortion. Obria staff will provide neutral, factual information and nondirective counseling on each of the options, except if the pregnant woman indicates that she does not wish to receive such information and counseling.

All Obria staff will be trained on Title X regulations and requirements applicable to voluntary family planning services regarding abortion and the required scope of voluntary family planning services. Obria sites will maintain records indicating the completion of such training in each employee's personnel file.

**9. Evidence that Title X activities are separate and distinct from non-Title X activities;**

The Obria Group, Inc. and Obria affiliates are committed to high standards and compliance with all applicable laws and regulations regarding the provision of high quality health care services and the implementation of Title X voluntary family planning projects. The Obria Group, Inc. and its affiliates will implement the following to secure that Title X activities and separate and distinct from non-title X activities, as follows:

**A. Written policies denoting Title X activities from non-Title X activities.**

B. Written policies that clearly indicate that none of the Title X funds will be used in programs other than family planning services.

C. Financial documentation demonstrating that Title X funds are not being used for non-Title X services and adequate separation exists between Title X and non-Title X activities.

**10. A plan for providing community information and education programs which promote understanding about the availability of services. The plan should include a strategy for maintaining records of information and education activities;**

All Obria affiliates will establish and implement planned activities to facilitate community awareness of and access to family planning services, as follows:

1. Obria will conduct periodic assessment of the needs of the community with regard to their awareness of and need for access to family planning services.
2. Obria will develop a written community education and service promotion plan (e.g., media spots/materials developed, SEO/SEM online marketing, event photos, participant logs, and monitoring reports). The plan will be as follows: (a) it will state that the purpose is to enhance community understanding of the objectives of the project, make known the availability of services to potential clients and encourage continued participation by persons to whom family planning may be beneficial, (b) promotes the use of family planning services among those with unmet need and community partners, (c) utilizes an appropriate range of methods to reach the community, (d) maintain proper records of community awareness and education activities; and (d) includes an evaluation strategy.

Obria will promote family planning services with local churches, community organizing agencies, community health centers, legal services providers, nonprofit hospitals, local workforce development agencies, youth services/youth development organizations, family resource centers and human services providers for families, child welfare organizations, community development organizations, and anti-poverty organizations, among others.

**11. A plan for an information and education advisory committee that is consistent with the Title X statute and regulations and that ensures that all information and education materials are current, factual, and medically accurate, as well as suitable for the population or community to which they will be made available;**

Obria will establish and maintain Information & Education Committees made up of local members. All medical policies and procedures and educational information will be approved by Obria's I & E committee prior to use by clinic personnel, as follows:

1. Obria will have informational and educational material reviewed by an I & E Advisory committee prior to distribution.
2. Obria's I & E Advisory Committee will broadly represent the population or community for whom the materials are intended, including: Race; Color; National origin; Differently-abled condition; Sex; and Age.
3. The committee will consist of five to ten members.
4. The committee will assure that materials provided to clients within the Reproductive Health Program are:
  - a) Suitable for the population and community for which they are intended; and
  - b) Consistent with the purposes of Title X Family Planning Projects.

5. The I & E Advisory Committee may delegate responsibility for the review of the factual, technical, and clinical accuracy of materials to appropriate staff. All materials which contain any medical information will be medically sourced by a reputable national medical organization, or government agency to ensure accuracy. The final responsibility for approval of I & E material remains with the I & E Advisory Committee.

6. The I & E Advisory Committee will:

- a) Consider the education and cultural backgrounds of the individuals or community to whom the materials are addressed.
- b) Consider the standards of the population or community to be served.
- c) Review the content of the material to assure that the information is factually correct.
- d) Determine whether the material is suitable for the population or community.
- e) Establish a written record of its determinations.

6. The I & E Advisory Committee will meet on an “ad hoc” basis to review material.

**12. Evidence that the Title X program priorities and key issues outlined above in this announcement are addressed in the project plan;**

The Obria Group, Inc. and its affiliates will be in full compliance with the Title X program priorities and key issues, as follows:

- Obria will have written policies and procedures that will ensure that all prospective low-income clients are able to access services, no charge will be made for services to persons from a low-income family except to the extent that payment will be made by a third party.

- Obria will have written policies and procedures that will ensure that all family planning medical services are performed under the direction of a physician with special training or experience in family planning and each family planning project must refer to other medical facilities when medically indicated, including in medical emergencies.
- Obria will have written policies and procedures that will offer a broad range of acceptable and effective family planning methods and services (including natural family planning methods, infertility services, and services for adolescents.) as listed above.
- Obria will have written policies and procedures that ensure that family planning services are provided within a holistic conversation of health and robust referral linkages to primary health providers near Obria's Title X sites.
- Obria will have written policies and procedures that ensure none of the funds appropriated under this title will be used in programs where abortion is a method of family planning.

**13. To the extent that the applicant will not provide all services directly, a description of the process and selection criteria used or to be used to select service sites and providers, including a description of eligible entities for funding as subrecipients.**

The Obria Group, Inc, and Obria affiliates emphasize collaborative approaches to address social determinants of health, improve healthcare delivery, produce systemic changes to break the cycle of poverty, and strengthen families, individuals, and communities. The Obria Group, Inc. and Obria affiliates will provide the entire scope of services under the voluntary family planning project guidelines described in this grant proposal. The Obria Group, Inc. will apply as the main recipient and all Obria affiliates across the nation (California, Oregon, Washington, Iowa and

Georgia) will join as subrecipients of the grant. The Obria Group, Inc. will provide grant management, implement the Obria's Reproductive Health Review Tool, perform quality control and compliance, provide new policies and procedures, manage marketing strategy, and organize the training of medical professionals (FEMM fertility awareness services, health education by Center for Relationship Education curriculum, and family planning services training). Each Obria affiliate will implement voluntary family planning project services and provide clinical, health education and supporting services to patients. Obria affiliates will be grant subrecipients. The Obria Group, Inc. selected the Obria affiliates listed below because they are committing themselves to implement the full scope of voluntary family planning services described in this grant proposal. Obria affiliates participating as grant subrecipients are the following:

Affiliate	State	Locations
Obria – Informed Choices	Iowa	5 health clinic sites and a mobile unit
Obria – Pacific Northwest	Washington	2 health clinic sites and a mobile unit
Obria – Real Options	California	4 health clinic sites
Obria – WPCC	California	2 health clinic sites
Obria – Pregnancy Alternatives	Oregon	1 health clinic sites and a mobile unit
Obria SoCal	California	3 health clinics and a mobile unit

**14. A staffing plan which is reasonable and adheres to the Title X regulatory requirement that family planning medical services be performed under the direction of a physician with special training or experience in family planning. Evidence that staff providing clinical services (e.g., physicians, State-recognized advanced practice nurses, physician assistants) will be licensed and function within the applicable professional practice acts for the State in which they practice.**

Obria's multidisciplinary team of health professionals are highly trained and have the knowledge, skills and abilities to provide quality care in a culturally and linguistically appropriate manner to

all individuals and families seeking sexual and reproductive health care regardless of creed, race, religion, insurance status, or ability to pay. They are also specially trained to provide in-depth and culturally appropriate health education and support through one-on-one consultations at any Obria clinic settings and referrals to community resources and/or partners. Key program staff involved in the implementation of Obria voluntary family planning projects, is as follows:

*Program Director:* will oversee the implementation of voluntary family planning projects at each Obria location across the country. He/She will provide grant management, implement of the Obria's Reproductive Health Review Tool, perform quality control and compliance, provide new policies and procedures, oversee the implementation of information and education advisory committees, and oversee the training of medical professionals.

*Program Coordinator:* will assist the program director and Obria affiliates in the implementation of voluntary family planning projects at each Obria affiliate across the nation. He/She will also work as the liaison between The Obria Group, Inc. and Obria affiliates. Track program performance.

*Health Education Manager:* will be responsible for the successful implementation of FEMM fertility awareness and Center for Relationship Education health education programs at the clinic level. She will be responsible for training Obria affiliates clinical staff to perform health education and support services. He/She will also be responsible for implementing Obria's Information & Education Advisory Committees at each Obria affiliate. And track program performance.

*Marketing Manager:* will be responsible for developing and implementing the community information and education program plan for each Obria Affiliate. He/She will be responsible for

conducting periodic assessment of the needs of each of Obria's geographic region about their awareness of and need for access to family planning services. He/She will also be responsible for the development and implementation of a community education and service promotion plan.

Obria Voluntary Family Planning Project Sites:

*Medical Director:* Each Obria affiliate site will have a medical director or physician. All medical services will be performed under the direction of a physician with special training or experience in family planning. All clinic protocols will be approved by the Medical Director.

*Nurse Practitioner:* will manage all the medical day-to-day operations of the health clinic, maintaining effective patient flow and assuring all medical services are consistent with the clinic's mission and philosophy as well as implementation and maintenance of clinic policies and procedures related to medical matters.

*Registered Nurse:* will implement best medical practices in clinic services and patient care; oversees patient database accuracy, patient files and conducts annual audits to ensure compliance; and, provides staff training quarterly or as needed.

*Obria Affiliate Project Manager:* Supervises the day-to-day operations of the clinic (non-medical related); provides training, management, and supervision of the clinic staff; conducts church, community, and school outreach; and, implements and maintains clinic policies and procedures.

**15. Goal statement(s) and related outcome objectives that are specific, measurable, achievable, realistic and time-framed (S.-M.-A.-R.-T);**

Quantitative and qualitative methods of evaluation are needed and will be used to measure project outcomes. Program measures will also help identify program strengths and weaknesses

to improve and assess if the program is maintaining and achieving its originally planned objectives. An Obria quality improvement team will oversee the evaluation process and ensure that the program is meeting all critical elements, goals, and objectives during its implementation.

(b)(4)

A large, solid gray rectangular area covering the majority of the page, indicating that the content has been redacted under FOIA exemption (b)(4).

(b)(4)

**16. Evidence, including signed referral agreements with relevant referral agencies, that the applicant has a plan to facilitate access to the following:**

- **all required clinical services, provided according to a schedule of rates that are reasonable and necessary as required by 42 CFR 59.5;**
- **comprehensive primary care services, if not provided by the project, and**
- **other needed health and social services for clients served in the Title X funded family planning projects, such as HIV care and treatment services.**

The Obria Group, Inc. and Obria affiliates emphasize collaborative approaches to address the social determinants of health, improve healthcare delivery, produce systemic changes to break the cycle of poverty, and strengthen men, women, and adolescents. In fact, collaboration is a

goal outlined in Obria's strategic plan. Obria is actively seeking and establishing partnerships and collaborations in the community to better serve its clientele in a comprehensive and holistic approach. Obria has an extensive history of community partnerships, and currently offers services as part of several formal collaborations. Currently, Obria clinic sites refer patients to local hospitals, free primary health care clinics and federally qualified health clinics.

Obria will formalize partnerships in the community and implement new procedures, as follows:

1. Plan to address the related social service and medical needs of clients as well as ancillary services needed to facilitate clinic attendance.
2. Establish collaborative agreements with relevant social service referral agencies, for example: child care agencies, transport providers, WIC programs.
3. Coordinate with and refer clients to other providers of health care services, which may include local health and welfare departments, hospitals, voluntary agencies, and health services projects supported by other federal programs.
4. Formalize collaborative agreements with other relevant referral agencies, including: emergency care, HIV/AIDS care and treatment agencies, infertility specialists, and chronic care management providers, and providers of other medical services not provided on-site.
5. Document through Medical records when referrals are made based on documented specific condition/issues.

**17. Evidence of the capability to collect and report the required program data for the Title X annual data collection system, the Family Planning Annual Report (FPAR),**

The Obria Group, Inc. requires all Obria affiliates to use Medicaid Certified electronic health record (EHR) system that stores data in a structured format to efficiently capture and share patient data efficiently. This structured data allows Obria to easily retrieve and transfer patient information, and use the EHR system in ways that can aid patient care and generate meaningful reports. All Obria affiliates will use Athena Health EHR data to track quality measures as well as the following:

1. Use of Family Planning Annual Reports (FPAR) data to calculate percentage of adolescent and adult women at risk of unintended pregnancy who use: a) a most or moderately effective method of contraception, and b) long-acting reversible methods of contraception.
2. Use of ongoing (at least annually) quality improvement processes related to the contraceptive use measure.
3. Use of data to monitor other aspects of quality care (e.g. client experience, chlamydia screening rates, timelines, and efficiency).

**18. Evidence of a system for ensuring quality family planning services, including:**

- a process for ensuring compliance with program requirements;
- defined performance measures, including an agreement to measure those provided to successful grantees upon notification of award, and a process for systematically assessing the quality of services provided throughout the defined projects; and a methodology for ensuring that health care practitioners have the knowledge, skills, and attitudes necessary to provide effective, quality family planning and related preventive health services that are consistent with current, evidence-based national standards of care and which include core family planning services, as enumerated early in this Funding Announcement. This will include training of select

**health care practitioners by OPA, and may utilize other clinical training opportunities available through OPA.**

The Obria Group, Inc. and Obria affiliates have a commitment to providing the highest levels of quality care to our patients, and the same high level of quality in our business practices. Achieving accreditation by AAAHC is proof that we have met the rigorous standards of a nationally-recognized third party. For this reason, The Obria Group, Inc. and Obria affiliates will use a custom Title X program review tool consistent with the Office of Population Affairs (OPA) requirements for the provision of Title X services. The tool focuses on the Title X requirements along with describing strategies that can be used to operationalize Title X statutory and regulatory requirements. It lays out the minimum expectations for compliance and provides information on how to implement Quality Family Planning (QFP) services recommendations.

The review tool is divided into sections according to the Title X requirements. The first column provides the actual Title X requirement and the second column provides the strategies that ensure compliance for that requirement. Each strategy has a “met or not met” component, if those strategies are met then that section would be in compliance. If our Obria affiliate site is not compliant with the requirement overall, The Obria Group, Inc. will have to make the necessary corrections to come into compliance. The Obria Group, Inc. encourages each Obria affiliate to begin to incorporate the QFP recommendations to ensure quality care.

**Title X Program Performance Measures based on Title X Requirements:**

1. Voluntary Participation: Obria affiliates (sub-recipients) should institutionalize administrative procedures (i.e., staff training, clinical protocols, and consent forms) to ensure clients receive services on a voluntary basis.

2. Prohibition of Abortion: Obria affiliates have written policies that abortion is not provided as a method of family planning.
3. Structure and management: Obria has policies & procedures and other systems in place to ensure that affiliate clinic sites follow strict Title X regulations.
4. Charges, Billing, and Collections: Implementation of policies and procedures for schedule of discounts. The schedule will be based on ability to pay, is required for individuals with family incomes between 101% and 250% of the Federal Poverty Level (FPL). Fees must be waived for individuals with family incomes above 100% of the FPL.
5. Project Personnel: Obria will ensure that project staff should be representative of the population to be serviced by the project. Obria will ensure that family planning services will be performed under the direction of a physician with experience in family planning.
6. Staff Training and Technical Assistance: Obria will ensure that projects must provide for the orientation and in-service training of all project personnel, including the staff of sub-recipient agencies and service sites. The Obria Group, Inc. and Obria affiliates will ensure that personnel working in Title X family planning service projects have the knowledge, skills, and attitudes necessary to effectively deliver high quality family planning services. All medical providers will be required to participate in trainings by the Family Planning National Training Center and the National Clinical Training Center.
7. Planning and Evaluation: Obria affiliates will have a quality assurance system in place. The plan will include: review of medical records; client satisfaction survey; and review of data (use of Family Planning Annual Reports (FPAR) data).

8. Project Services and Clients: All services provided operate within written clinical protocols that are in accordance with nationally recognized standards of care, are signed by the physician responsible for the service site and approved by the grantee. Obria affiliates provide for medical services related to family planning and the effective usage of contraceptive devices and practices. Obria affiliates provide a broad range of acceptable and effective medically approved family planning methods. Obria affiliates provide pregnancy diagnosis and counseling to all clients in need of these services.
9. Confidentiality: Every Obria affiliate has safeguards to ensure client confidentiality.
10. Community Participation: Obria affiliates provide an opportunity for participation in the development, implementation, and evaluation of the project by persons broadly representative of the population; and by persons in the community knowledgeable about the community's needs for family planning services.
11. Information and Education Materials Approval: Obria affiliates have a review and approval process, by an Advisory Committee, of all informational and educational materials developed or made available under the project prior to their distribution.
19. **Evidence that the applicant has ability to bill third party commercial insurance carriers and Medicaid in accordance with Title X requirements; and the ability to facilitate enrollment of clients into Medicaid.**

The Obria Group, Inc. has policies in place that require that all Obria affiliates across the nation implement policies and procedures to seek reimbursements from public and private health insurances. The Obria Group, Inc. also requires all Obria affiliates to implement fee schedules based on local Medicaid rates and sliding fee schedule program. The sliding fee discount program,

which includes a fee scale and fee schedule, is intended to help cover some of the costs of specific services for low-income individuals that qualify for a discount. The Obria Group, Inc, and Obria affiliates will seek reimbursements from both public (Medicaid) and private health insurance companies. Where there is legal obligation or authorization for third party reimbursement, including public or private sources, all reasonable efforts will be made by Obria affiliates to obtain third party payment without the application of any discounts. Family size and income will be assessed before determining whether additional fees are charged. Regarding insured patients, patients whose family income is at or below 250% FPL will not pay more (in copayments or additional fees) than what they would otherwise pay when the schedule of discounts is applied.

The Obria Group, Inc and Obria affiliates will demonstrate the following:

1. Public and private health insurances will be billed in accordance with Title X regulations.
2. The sub-recipient or Obria affiliates will demonstrate that it has contracts with insurance providers, including public and private sources.
3. The sub-recipient or Obria affiliate will demonstrate that it assists all qualified patients to enroll into Medicaid.
3. Financial records will indicate that patients with family incomes between 101%–250% FPL will not pay more in copayments or additional fees than they would otherwise pay when the schedule of discounts is applied.
4. Documentation will demonstrate that patients' services remain confidential when billing and collecting payments.

Reproductive Health Care  
Status: Review in Progress  
Document Title: BudgetNarrativeAttachments\_1\_2-Attachments-1236-Budget Narrative  
Title X Obria Group Final.pdf

### Budget Narrative and Justification

The Obria Group, Inc. and Obria affiliates will implement 21 voluntary family planning services sites in several states across the nation. These new 21 voluntary family planning sites will be in California (10 sites), Oregon (2 sites), Washington (3 sites), Iowa (5 sites), and Georgia (1 site). The Obria Group, Inc. and Obria affiliates expect to serve approximately 25,650 patients under 100% of the federal poverty level. The unit cost of each patient serviced by Obria Medical Clinics is approximately (b)(4)

**Equipment Description:** "Equipment" means an article of nonexpendable, tangible personal property having a useful life of more than one year per unit.

Funds are requested to purchase two laptop computers for new program personnel (b)(4) to work on the implementation of this project. New program personnel include the Health Education Manager and Project Manager. Two laptop computers are needed to perform tasks regarding the implementation of Obria voluntary family panning project sites.

Object Class:	Federal Funds	Non-federal Funds	Total Budget
Equipment			
Laptop Computers	(b)(4)		

**Equipment Justification:** For each type of equipment requested you must provide a description of the equipment; the cost per unit; the number of units; the total cost; and a plan for use of the equipment in the project; as well as a plan for the use, and/or disposal of, the equipment after the project ends.

Two laptop computers @ (b)(4) each are requested for new title X personnel (Health Education Manager, Project Manager) to use in the project.

**Supplies Description:** Costs of all tangible personal property other than those included under the equipment category.

Materials and Supplies are budgeted at (b)(4) in year 1. The money will be spent on office supplies (paper, pens, staples, tape, ink, postage notes, erasers, paper clips, envelopes, stamps, etc.).

Object Class:	Federal Funds	Non-federal Funds	Total Budget
Supplies			
Office Supplies	(b)(4)		

**Supplies Justification:** *Specify general categories of supplies and their costs. Show computations and provide other information that supports the amount requested.*

Due to the nature of the project, materials costs are estimated based on the project director's knowledge of prior projects of similar scope, and no further breakdown of materials is available.

**Contractual Description:** *Costs of all contracts or sub awards for services and goods except for those that belong under other categories such as equipment, supplies, construction, etc. Include third-party evaluation contracts, if applicable, and contracts or subawards with subrecipient organizations (with budget detail), including delegate agencies and specific project(s) and/or businesses to be financed by the applicant.*

The Obria Group, Inc. will issue sub awards to seven Obria affiliates to help carry out the project awarded to The Obria Group, Inc. A sub award relationship is described in the grant proposal and additional documents. It will be consummated until after the award has been made to The Obria Group, Inc. which is submitting the prime proposal.

The Obria Group, Inc. will have agreements with seven Obria affiliates to work collaboratively on Obria's Voluntary Family Planning Project. Each institution has its own project director; however, The Obria Group, Inc.'s Project Director will be the legal contact with the Office of Population Affairs.

The characteristics of an Obria affiliate sub-recipient include:

- Obria affiliates are committed to carry out a portion of the scope of work, which includes the provision of direct sexual and reproductive health care services to patients.
- Each Obria affiliate (sub-recipient) will collaborate with The Obria Group, Inc (main recipient) on the project; both The Obria Group, Inc. and the Obria affiliates have project directors involved, though The Obria Group, Inc is the lead institution.

The Obria Group, Inc. will obtain the following from the sub-recipient institution:

- A brief description of the scope of work proposed by the sub-recipient
- A detailed budget, to be included in The Obria Group's application to the Office of Population Affairs. Budget includes Direct and Indirect costs for the sub-recipient (please find attached).
- A Letter of Commitment bearing the signature of the sub-recipient institution's authorized official from the authorized official at the sub-recipient organization stating that it is willing to abide by The Obria Group, Inc. terms should an award be made.
- Other documentation as required, such as the key personnel curriculum vitae as well as current and pending support.
- The proposed sub-recipient includes its total costs (Direct Costs + Indirect Costs) in its submission to The Obria Group, Inc. for inclusion in The Obria Group, Inc. proposal.

The costs associated with each sub-recipient' commitment for the implementation of the project are as follows:

Sub-Recipient	Federal Funds	Non-Federal Resources	Total Budget
Obria - Real Options (RO), California	(b)(4)		
Obria – Women Pregnancy Care (WPCC), California			
Obria – Southern California Inc. (OMC SoCal), California			
Obria – Pregnancy Alternatives Center (PAC), Oregon			
Obria – Pacific Northwest (PNW), Washington			
Obria – Gwinnett, Georgia			
Obria – Informed Choices, Iowa			
Total			

**Budget Justification or Contractual Justification:** *Demonstrate that all procurement transactions will be conducted in a manner to provide, to the maximum extent practical, open, and free competition.*

The Obria Group, Inc. has had affiliation agreements with seven different and independent Obria affiliates for the past two years. The Obria Group, Inc. will direct and oversee the implementation of 21 Voluntary Family Planning Service sites at each Obria affiliates across the country. Their work together has resulted in the provision of cost-effective programs and services for low-income populations. The proposed new voluntary family planning projects sites are expected to

increase access to sexual and reproductive health care services and improve health outcomes.

The Obria Group, Inc. will implement the following standards for this project:

1. A written agreement between The Obria Group, Inc. and Obria Affiliates that is consistent with Title X program requirements and approved by the grantee.
2. Sub-recipient agreement is approved by the grantee.
3. The Obria Group, Inc. will have a monitoring plan to ensure sub-recipient entity is providing family planning services according to Title X requirements and program elements.
4. Documentation will show that The Obria Group, Inc. is monitoring the service sites bi-annually for compliance to Title X requirements and program elements.

**Other Description:** *Enter the total of all other costs. Such costs, where applicable and appropriate, may include but are not limited to: consultants; insurance; professional services (including audit charges); space and equipment rent; printing and publication; training, such as tuition and stipends; participant support costs including incentives.*

**Other Justification:** *Provide computations, a narrative description, and a justification for each cost under this category.*

- REAL Essentials Training @ (b)(4)

Funds are requested to provide REAL Essentials training to at least 70 health care providers, health educators, patient care coordinators and other personnel to provide REAL Essentials sexual risk avoidance education in different social settings, including high schools, community events and churches, among others. Each training will be provided for affiliates across the nation by Obria's Health Education Manager.

- REAL Essentials Health curriculums @ (b)(4)

Funds are requested to provide 14 REAL Essentials Health curriculums to Obria affiliates across the nation. Each curriculum is designed to help health care providers provide sexual risk avoidance education in clinic settings.

- Real Essentials Curriculum @ (b)(4)

Funds are requested to provide REAL Essentials curriculums to each REAL Essentials trainee. Each REAL Essentials trainee is required to obtain a curriculum to complete the training.

- Training facilities @ (b)(4)

Funds are requested to secure training facilities to provide REAL Essentials trainings.

- Utilities - High Speed Internet and telephone @ (b)(4)

Funds are requested to cover the costs of high speed internet services and VoIP telephone services.

- Social Media Advertising @ (b)(4)

Funds are requested to promote family planning services through social media (Facebook, Twitter, Instagram). Obria's marketing manager will implement Obria's marketing strategy through a multichannel approach, which includes social media.

- SEO-SEM Marketing @ (b)(4)

Funds are requested to implement Obria's online marketing strategy and promote sexual and reproductive health care services on Google. This SEO/SEM services will be provided by AdAmerica.

- Web design and development 18 landing pages @ (b)(4)

Funds are requested to develop 18 new landing pages for the Obria.org website to provide information about each new family planning services provided at each Obria location across the country. Web development services will be provided by (b)(4)

- Web maintenance @ (b)(4)

Funds are requested to provide maintenance for the Obria.org website which will provide information about Obria sexual and reproductive health care services. Web maintenance services includes web hosting, changes, and updates, etc. Web maintenance services will be provided by Arctic Leaf web developers.

- Telemedicine platform total = (b)(4)

Funds are requested to provide maintenance and support to Obria's telemedicine platform. Patients will be able to schedule appointments, chat with a health care professional or video chat with a nurse or physician. Telemedicine costs include the following: (b)(4)

(b)(4)

- Marketing Materials @ (b)(4)

Funds are requested to provide marketing and educational materials for Obria affiliates across the nation. Each Obria affiliate will receive marketing and educational materials regarding the availability of sexual and reproductive health care services.

- Rent @ (b)(4)

Funds are requested to cover the costs for office rent.

- Liability Insurance @ (b)(4)

Funds are requested to cover the costs for commercial liability insurance for The Obria Group, Inc.

- Accounting Services @ (b)(4)

Funds are requested to cover the costs for grant accounting and management services, including fund reconciliation reports and back up documentation. Review and verification of back up documentation, fund consolidation and reports, and grant reporting submission. Accounting services will be provided by (b)(4)

**Indirect Costs Description:** *Total amount of indirect costs. This category has one of two methods that an applicant may select. You may only select one.*

Total indirect costs: (b)(4)

The Obria Group, Inc. elected to charge (b)(4) of modified total direct costs (MTDC). Each Obria affiliate used the same formula to calculate their indirect costs.

**Indirect Costs Justification:** *Provide the calculation for your indirect costs total, i.e., show each line item included in the base, the total of these lines, and the application of the indirect rate. If you have multiple approved rates, indicate which rate as described in your approved agreement is being applied and why that rate is being used.*

Total Obria Group indirect cost requests: (b)(4) of total request (b)(4) = (b)(4)

**Program Income Description:** *Program income means gross income earned by your organization that is directly generated by this project if funded.*

Total program income (b)(4) eligible patients @ (b)(4) each average approximate (b)(4)

It is estimated that approximately (b)(4) patients across all clinic locations will have to pay for services. The average estimated is (b)(4) per each patient.

**Program Income Justification:** *Describe and estimate the sources and amounts of Program Income that this project may generate if funded. Unless being used for cost sharing, if applicable, these funds should not be added to your budget.*

The Obria Group, Inc. and Obria affiliates (sub recipients) are expecting to generate income via fee-for-services, sliding fee scale and reimbursements from insurance from eligible patients. Patients under 100% of the FPL and will be eligible for free services. The Obria Group, Inc. and Obria affiliates estimate that approximately (b)(4) patients will be eligible for payments as follows:

Fee-for-services: (b)(4)

Sliding fee scale (b)(4)

Health Insurance reimbursements: (b)(4)

**Non-Federal Resources Description:** *Amounts of non-federal resources that will be used to support the project*

Total non-federal resources committed for the project: (b)(4)

**Non-federal Resources Justification:** *You must provide detailed budget information for every funding source*

The Obria Group, Inc. is one of the most successfully funded non-profit organizations in the nation, securing and maintaining funding for its numerous projects and services. Obria will seek, research, and apply for new founding opportunities at the local, state, and national levels on an ongoing basis to sustain its programs and services. (b)(4)

(b)(4)

(b)(4)

(b)(4)

- **How your organization will provide oversight of federal funds and how award activities and partner(s) will adhere to applicable federal award and programmatic regulations.**

The Obria Group, Inc. will create written policies and procedures to exercise effective control over and accountability of federal funds. Its purpose will be to ensure that assets are safeguarded, that financial statements are in conformity with generally accepted accounting principles, and that finances are managed with responsible stewardship. All personnel with a role in the management of The Obria Group, Inc. fiscal operations are expected to uphold these policies.

The Obria Group, Inc. will require that Obria affiliates (sub recipients) follow written policies and procedures for grant award accounting and management as well. In managing federal funds, The Obria Group, Inc. will use and enforce the following policies and procedures:

(a) The Obria Group, Inc. is responsible for the efficient and effective administration of the grant award through the application of sound management practices.

(b) The Obria Group, Inc. assumes responsibility for administering Federal funds in a manner consistent with underlying agreements, program objectives, and the terms and conditions of the grant award.

(c) The accounting practices of The Obria Group, Inc. will be consistent with Title X accounting management regulations and will provide for adequate documentation to support costs charged to the grant award.

(d) All transactions performed by The Obria Group, Inc. and Obria affiliates associated with the grant award funds will be adequately documented.

(e) Any request by a subrecipient for prior approval will be addressed in writing to The Obria Group, Inc. The Obria Group, Inc. will promptly review such request and approve or disapprove the request in writing. The Obria Group, Inc. will not approve any budget or project revision which is inconsistent with the purpose or terms and conditions of the Federal grant award to The Obria Group, Inc. If the revision, requested by the subrecipient would result in a change to The Obria Group's approved project which requires Federal prior approval, The Obria Group, Inc. will obtain the HHS awarding agency's approval before approving the subrecipient's request.

(f) The Obria Group, Inc., will employ the following specific management techniques to assure proper and efficient administration of the grant award:

- Only use funds when properly needed.
- Collect remitted quarterly draw requests from sub recipients.
- Review for appropriate format and reasonableness within grant award guidelines.
- Prepare and submit wire transfers to disburse funds to sub recipients.
- Collect remitted quarterly fund reconciliation reports and back up documentation from sub recipients.
- Review for appropriate format, footing and verification of proper back up documentation

- Consolidate fund reconciliation reports to total grant award funds.
- Prepare and submit quarterly online grant reporting required by grant guidelines.
- **The organizational systems that demonstrate effective control over and accountability for federal funds and program income, compare outlays with budget amounts, and provide accounting records supported by source documentation.**

The Obria Group, Inc. will have policies and procedures in place to exercise effective control over and accountability of federal funds. Accounting and internal control systems will be in place and completely integrated into the organization's financial system. Any funds granted as well as other funds to be used in performance of the approved project will be expended solely for carrying out the approved project in accordance with the title X statutes, regulations and the terms and conditions of the award, and the applicable cost principles. The Obria Group, Inc. and Obria affiliates will implement the following procedures for financial accountability and management:

(a) All payments made by the Office of Population Affairs will be recorded in accounting records separate from the records of all other grant funds, including funds derived from other grant awards. The Obria Group, Inc. will account for the sum total of all amounts paid by presenting or otherwise making available evidence satisfactory to the Office of Population Affairs of expenditures for direct and indirect costs. Obria will use QuickBooks accounting software. QuickBooks allows for segregation of funds and revenues and expenses by cost. It also provides the necessary structure to account for unrestricted, temporarily unrestricted, and permanently restricted net assets, according to GAAP and in compliance with necessary accounting and auditing standards.

(b) The Obria Group, Inc. and Obria affiliates will have a system to adequately safeguard revenue and other assets through separation of duties. No one person will have complete control over one key function or activity.

(c) An external accounting company (b)(4) will oversee the preparation of monthly and quarterly financial reports and, along with the CEO, presents them to the Board of Directors' Finance Committee and management team. The financial reports will include year-to-date expenditures, comparisons against budget, and monthly activities. The Board of Directors will review these reports on a bi-monthly basis. The CEO will oversee the accounting and finance department operations and the implementation of the Board-approved financial policies and procedures, which are updated once each year. To ensure accuracy of the financial reports, accounts will be analyzed and reconciled monthly. Applicable policies and procedures are also documented and reviewed regularly by the Finance Committee of the Board of Directors.

Obria will also ensure that an independent audit is performed each year. Audited financial statements are available to the public and are in full compliance with generally accepted accounting principles (GAAP). An organization's independent auditing firm will ensure that the organization is financially viable and that accounting policies and procedures and internal controls are compliant with GAAP.

(d) The Obria Group, Inc. and Obria affiliates will have systems must be in place that allow for review and reconciliation of funds.

(e) The Obria Group, Inc. and Obria affiliates will have accounting records that will be supported by source documentation such as cancelled checks, paid bills, payrolls, time and attendance reports, contract and sub-contract documents, etc.

- **For any program incentives proposed, the specific internal controls that will be used to ensure only qualified participants will receive them and how they will be tracked.**

Not applicable.

- **Organizational controls that will ensure timely and accurate submission of Federal Financial Reports to the OASH Office of Grants Management and Payment Management Services as well as timely and appropriate withdrawal of cash from the Payment Management System.**

The Obria Group, Inc. will implement written policies and procedures to ensure timely and accurate submission of financial reports to the OASH Office of Grants Management and Payment Management Services. The Obria Group, Inc. will have specific program data reporting systems which accurately collect and organize data for program reporting and which support management decision making and act in accordance with other reporting requirements as required by grant award guidelines. The Obria Group, Inc. will also require that all sub recipients comply with guidelines regarding reports associated with federal award grants.

The Obria Group, Inc. will render all necessary reporting requirement and a full account as of the date of the termination of grant support. An external accounting company (b)(4)

(b)(4) will oversee the preparation of the monthly and quarterly financial reports for distribution to the Director, and the Budget and Finance Committee. The reports will include: a

balance sheet and a statement of income and expenses for each department (operating, project); a consolidated balance sheet and consolidated income and expense report which show all departments combined; a budget-to-actual report for all accounts included in the annual operating budget; a list of deferred and receivable funds, and a cash flow projection. In addition, the monthly reports for the quarterly periods will be submitted to the full board for their review and acceptance at the following board meeting.

Audit report will be prepared summarizing the total income and expense activity for the year. A balance sheet will be prepared as of September 30 and should be attached to the income and expense report. This report will be initially reviewed by the Director and then by the Treasurer, prior to distribution at the annual meeting.

If required, The Obria Group, Inc. will submit a federal financial report for each budget period no later than 90 days after the end of the calendar quarter in which the budget period ends.

The Obria Group, Inc. will also submit a final federal financial report at the completion of the award agreement for all awards. The Obria Group, Inc. will consider the reporting period end date the same as the end date of the project or grant period. The Obria Group will submit a final federal financial report within 120 days after the end of the competitive segment.

In addition, The Obria Group, Inc. will follow the Payment Management System's best practices and recommendations for the appropriate execution of awards and withdrawal of cash, as follows:

1. In accordance with regulations, award funds to The Obria Group, Inc. will be requested for immediate disbursement (3 business days) unless otherwise stated in the Notice of

Award. Requests for reimbursement will be made at any time. The Obria Group, Inc. will not be holding excess cash. Funds will be requested as needed.

2. The Obria Group, Inc. will promptly return any funds not spend within three business days.
3. The Obria Group, Inc. will submit Federal Cash Transaction Report (FCTR) on time.
4. The Obria Group, Inc. will promptly respond to Payment Management System's requests for information.
5. The Obria Group, Inc. will review Federal Cash Transaction Report each quarter and reconcile any differences with Obria's records.

### **List of Services, Tests, and Family Planning Methods**

The ultimate goal of implementing “Voluntary Family Planning Projects” at each Obria Medical Clinic location (18 in total) across the country is both: 1) to provide the full array of required services under this grant and, 2) to improve access to timely and affordable high quality sexual and reproductive health care services, health education and supportive services for women, men and adolescents at risk for poor health outcomes. Improved access to Obria’s evidence-based services will improve health outcomes and ultimately reduce unnecessary emergency department visits and the need for catastrophic care among vulnerable women, men and adolescents. Obria’s providers and staff, which includes OB/GYNs, nurse practitioners, registered nurses, medical assistants, clinic managers and volunteer physicians have a unique opportunity to identify, intervene and assist individuals in need before communicable diseases manifest themselves. Early identification and intervention increases the likelihood that at-risk women, men and adolescents stay healthy and safe. In 2017, Obria’s network of community health care clinics across the nation served 6,256 patients through 14,422 medical visits. Of those seen, 97% were below 200% of the federal poverty line; 77.7% of Obria patients reported themselves to be female; 41.4% were between the ages of 15-24; 34.8% were Hispanic; 26.3 % were Caucasian; 12.8% were African American; and 8.6% were Asian.

Obria’s professionals practice evidence-based medicine using nationally recognized clinical practice guidelines. All 18 proposed Obria “Voluntary Family Planning Projects” across the nation will provide the following sexual and reproductive health care services:

<b>Pregnancy Testing &amp; Counseling</b>	<b>STI Testing &amp; Treatment</b>	<b>Well-Woman Care-Pap Smears</b>
<b>Pregnancy Ultrasound Services</b>	<b>STI Risk Prevention Education</b>	<b>Breast &amp; Cervical Cancer Screening</b>
<b>Prenatal Care</b>	<b>HIV/AIDS Testing &amp; Education</b>	<b>UTI Testing and Treatment</b>
<b>Pregnancy Options Education</b>	<b>Sexual Risk Avoidance Education</b>	<b>Fertility Awareness</b>
<b>Natural Family Planning</b>	<b>Contraception Education</b>	<b>Preconception Services</b>

In addition, Obria family planning sites will adhere to the following family planning services standards:

- A. Informed Consent:** Patient participation in the project will be voluntary and without coercion. All patients will be required to sign an informed consent form.
- B. Confidentiality:** All services will be provided in a manner that respects the privacy and dignity of the individual patient. Patients will be informed and assured confidentiality.
- C. Cultural and Linguistic Competency:** All services will be provided in a culturally sensitive manner and communicated in a language understood by the patient.
- D. Access to Care:** All services will be provided to eligible clients without bias based upon gender, sexual orientation, age, race, marital status, religion, parity or disability. Family planning services and family planning-related services will be at no cost to eligible patients. Referrals to local resources will be made available to clients when needed medical and psychosocial services are beyond Obria's scope of services, including, but not limited to, primary care, domestic violence and substance abuse related services.
- E. Clinical and Preventive Services:** Only licensed personnel with family planning skills, knowledge and competency will provide the full range of family planning medical services. Services will be available to patients onsite or by telehealth:

#### **Family Planning Services**

- **Contraceptive Services for women and men:**
  - a) A comprehensive health history with updates at least every 24 months, including personal medical, sexual and contraceptive history; plans for having children; a complete family history; health risk factors; and obstetrical and gynecological history.

c) *Laboratory tests*, including urine pregnancy test, will be provided as clinically indicated in in the context of an individual client's medical history, medical conditions and risk factors.

d) Follow-up care, including management of complications associated with a client's contraceptive method(s) or procedures, will be provided.

c) Contraceptive education & counseling. Obria patients will be educated on the effectiveness, possible side effects, and complications of all contraceptives. All birth control discussions will be done by a licensed healthcare professional or provider only.

d) The following contraceptive methods and procedures will be provided onsite: Sexual risk avoidance education (Relationship Education and Leadership Essentials Curriculums) and Fertility Education & Medical Management (FEMM) which are abstinence and fertility awareness methods and counseling programs.

**Limited fertility services:**

a) Health history will be focused on potential causes of infertility including health risk factors; personal medical, sexual and contraceptive history; and a family history.

b) A physical examination related to fertility may be performed as clinically indicated.

c) Instruction in the use of supplies (for example, basal body temperature thermometer) may be provided as requested.

d) *Fertility Education & Medical Management (FEMM)*: All Obria clinics will provide FEMM services onsite or via telehealth. The program is a fertility awareness method and counseling program. This program includes both 1) teaching women to understand their bodies and how to recognize hormonal and other vital signs of health; and 2) provide accurate medical testing and treatment based on evidence-based medical protocols, including wellness checks and Pap Smears. FEMM Medical Protocols that assess

over 10 hormones, a woman's clinical history, and cycle data, to diagnose and treat the underlying causes of symptoms. The program also includes teaching men to better understand women's bodies so that they can fully support the health of the women in their lives.

- **Specified reproductive health screening tests (Screening for STDs/STIs onsite, including Chlamydia, Gonorrhea, HIV and Syphilis.):**

a) All Obria clinic locations will provide specified Reproductive Health Screening Tests or screening for STDs/STIs onsite. The reproductive health screening tests for women and men, when clinically indicated, will include: Chlamydia, Gonorrhea, HIV and Syphilis. Prevention and control services will be consistent with the Centers for Disease Control and Prevention (CDC) and recognized medical practice standards. Services will include:

- i. Chlamydia screening annually for females 25 years of age and younger.
- ii. Confidential HIV risk screening, testing or referral to source of anonymous testing, client-centered counseling and referral for treatment.
- iii. Reporting of STI/HIV, as required by law, to appropriate local public health jurisdictions for contact management, prevention and control.

### **Family Planning-Related Services**

#### **1. *Breast and Cervical Cancer Screening***

a) Obria clinics will provide screening for breast and cervical cancer when the care is provided coincident to a visit for the management of a family planning method. Breast and cervical cancer screening visits will be offered every three years, unless otherwise indicated by the patient's health status.

b) Each client will be informed of the breast and cervical cancer screening interval that applies to the patient's individual circumstances as recommended.

c) Providers will have a follow up mechanism for all cervical cytology specimens to ensure that all results are evaluated and patients with cytological abnormalities are notified.

## **2. *Management of STDs/STIs***

a) Obria patients treated for Gonorrhea, Chlamydia, trichomonas and Syphilis will have arrangements made for repeat testing in accordance with CDC guidelines.

b) For Obria patients treated for Gonorrhea or Chlamydia, the need for partner therapy will be addressed.

## **3. *Management of UTIs***

a) Care will be provided coincident to a visit for the management of a family planning method.

b) A detailed history, and physical examination as clinically indicated, will be performed onsite to differentiate uncomplicated lower UTIs (acute bacterial cystitis) from complicated urinary tract infections. Medications to treat UTIs will be available by prescription.

## **Education and Counseling Services**

1. Family planning and reproductive health education and counseling services will be provided for women and men to clarify personal family planning goals and to promote optimal reproductive health will include an individual client assessment and ongoing reassessment of the client's reproductive health education and counseling needs, including:

a) A description of services and clinic procedures

b) The full range of contraceptive method options

c) Reproductive life plan and preconception health

d) STI/HIV transmission and prevention

2. Individual education and counseling sessions will be provided in a way that is understandable to the client and conducted in a manner that facilitates the patient's integration of information for the development of positive reproductive health behaviors. Counseling and education services will be supplemented with written materials, as needed.

3. Information will be provided in a manner of communication that is sensitive to diverse cultural and socioeconomic factors and the psychosocial aspects of reproductive health, including partner relationship and communication, risk reduction and decision making.

4. Written information about the scope of program services, how to obtain needed referrals, services for family planning related complications and where to obtain 24-hour emergency care services will be provided.

5. The option of including a patient's partner in the education and counseling session and other services will be at the patient's discretion.

6. Obria believes that women who are or may be pregnant have a right to know all their options before deciding about the outcome of their pregnancy. Obria staff will provide pregnancy options education to all pregnant patients as appropriate to the patient's situation and needs.

#### **Family Planning Education Services**

Education and counseling about contraceptives or limited fertility services and referral resources, whether a pregnancy test is positive or negative, will be provided in an unbiased manner that allows the patient full freedom of choice.

### **1. *Contraceptive Education Services***

Each patient will be provided with adequate information to make an informed choice about contraceptive methods, including:

- a) A verbal dialogue and written description of the full range of FDA-approved contraceptive methods, including effectiveness, duration, side effects, complications, medical indications and contraindications, social and physical advantages and disadvantages.
- b) A description of the implications and consequences of sterilization procedures, when client desires no future childbearing.
- c) The opportunity for questions or concerns related to contraceptive methods.

### **2. *Limited Fertility Education Services***

Each patient will be counseled in the use of Fertility Education & Medical Management (FEMM) to achieve or delay pregnancy and in the use of supplies to evaluate the fertile period. Patients who are seeking pregnancy will be provided preconception health counseling particularly regarding folic acid intake, taking control and choosing healthy habits, being healthy, and planning for the future.

### **3. Specified Reproductive Health Screening Tests Education Services**

Each patient will be counseled regarding a recommended interval for periodic reproductive health screening tests based on national guidelines.

### **Family Planning-Related Education Services.**

#### **1. *Breast and Cervical Cancer Screening***

Each patient will be counseled regarding a recommended interval for periodic breast and cervical cancer screening visits based on national guidelines.

## **2.     *Management of STIs***

- a)     Patients will be advised of their diagnosis, the need for partner testing and/or treatment and methods to prevent recurrent infection.
- b)     Patients treated for gonorrhea or chlamydia will be counseled regarding the importance of repeat testing in three months.
- c)     Patients will be counseled regarding the importance of completing prescribed therapy.

## **3.     *Management of UTIs***

Patients treated for UTI will be counseled regarding the importance of completing treatment and the prevention of reinfections.

## **4.     *Sexual Risk Avoidance Education***

All Obria affiliates will implement the REAL (Relationship Education and Leadership) Essentials Curriculum which is an innovative and evidence-based approach to imparting relationship development skills. The curriculum has also been evaluated. It builds on existing evidence in the field of whole child health, optimal wellness and pregnancy prevention by:

- 1.     Keeping sex positive and teaching toward something of greater reward and satisfaction rather than teaching away from consequences. Adolescent brain research indicates that teens respond better to reward rather than to consequences.
- 2.     Aligning the program with the National Health Education Standards.
- 3.     Including the common themes that are in many state's health education standards.
- 4.     Including the 17 characteristics of effective programs.

5. Aligning with the common themes in the literature that builds protective factors in youth outlined in the CDC / CRE SMARTool which is a curriculum analysis tool.

6. Aligning with many state regulatory and legislative policies for sexual health.

7. Aligning with the criteria for age-appropriate messaging and cognitive development.

8. Basing concepts in program on sound theoretical frameworks for child pedagogy and educational best practices.

5. Fertility Education & Medical Management (FEMM): This program includes both 1) teaching women to understand their bodies and how to recognize hormonal and other vital signs of health; and 2) provide accurate medical testing and treatment based on evidence-based medical protocols, including wellness checks and Pap Smears. The program also includes teaching men to better understand women's bodies so that they can fully support the health of the women in their live, and sexual education and reproductive health education for both teens and adults.

6. Obria Telemedicine Services: Obria's target demographic – young people ages 12-30 who are at high-risk or currently engaging in risky sexual behavior – are among the most digitally savvy market segment in generations. Their circle of influence centers on social media and they are increasingly looking for online access to healthcare resources.

Telemedicine in the context of sexual and reproductive health care is essentially eliminate barriers to quality care: creating an 'online clinic' that allows patients to instantly connect with a live Obria nurse. Our goal is to pro-actively market and find at risk patients while they are engaging in at-risk online behavior (through smartphone apps and social media) and instantly connect them to an Obria medical professional. An Obria medical professional will provide online counseling regarding sexual and reproductive health care and then direct them for further care at any brick-and-mortar Obria clinic.

**Letter of Commitment**

May 22th, 2018

Valerie Huber, Md.Ed.  
Acting Deputy Assistant Secretary for Population Affairs  
Office of Population affairs  
U.S. Department of Health & Human Services  
200 Independence Avenue, S.W.

Re: Letter of Commitment to implement a Voluntary Family Planning Project in San Jose (Silicon Valley), Mountain View, and Union City California.

Dear Ms. Huber,

I would like to express my full support for The Obria Group, Inc. application for the FY 18 Family Planning Service Grants Opportunity to implement several "Voluntary Family Planning Projects" across the nation. The Obria Group is an umbrella organization for a national network of life-affirming community health care clinics. Currently, Obria affiliates are in California, Oregon, Washington, Iowa, Minnesota and Georgia. Obria affiliates are committed to providing comprehensive life-affirming sexual and reproductive health care services, health education, and supportive services to all individuals seeking quality healthcare regardless of their ability to pay. For over 35 years, Obria has maintained its mission of providing high-quality, innovative, and holistic sexual and reproductive health care services that will contribute to a healthy community, focusing on those in need.

RealOptions, Inc. (aka, Crisis Pregnancy Center of Santa Clara County) is a 501 (c)(3) non-profit organization that provides a wide array of sexual and reproductive health care services in Central San Jose, East San Jose, Mountain View, and Union City, California including lab grade pregnancy testing, ultrasound imaging, options consultations, STD testing and treatment, prenatal care, material support, adoption referrals, abortion pill reversal treatment, childbirth and parenting classes, sexual risk avoidance education for students and parents, post-abortion support programs, and college campus outreach on local university and junior college campuses. RealOptions Obria Medical Clinics is recognized for its quality of care since 1981. We have four medically licensed clinics serving Santa Clara and Alameda Counties in the San Francisco Bay Area devoted to caring for patients physically, emotionally, and spiritually. These services are provided in a compassionate, inclusive, and non-judgmental manner to women and men in need of high quality care regardless of their ability to pay, creed, race, sexual orientation, national origin, or age. RealOptions offers a broad spectrum of prevention, intervention, and wellness services to the community positively impacting

thousands of students and families each year. In the event the proposed project is funded by The Office of Population Affairs, Obria Real Options' (b)(4) funding request will increase access for those in need in our local area, and greatly increase our capacity to provide the following services.

<b>Pregnancy Testing &amp; Consultations</b>	<b>STI Testing &amp; Treatment</b>	<b>Well-Woman Care</b>
<b>Pregnancy Ultrasound Services</b>	<b>STI Risk Prevention Education</b>	<b>Breast &amp; Cervical Cancer Screening</b>
<b>Prenatal Care</b>	<b>HIV/AIDS Testing &amp; Education</b>	<b>Health Screenings</b>
<b>Pregnancy Prevention</b>	<b>Sexual Risk Avoidance Education</b>	<b>Parenting Education</b>
<b>Natural Family Planning</b>	<b>Contraception Education</b>	<b>Referrals to Medical Partners</b>

I fully support the efforts of The Obria Group, Inc. and look forward to working with them in this important endeavor. We will work collaboratively with The Obria Group, Inc. to ensure our goals are aligned with the goals of the grant proposal, including efforts to track and report on outcomes. There are many health disparities that continue to exist in our community. Obria and its affiliates are dedicated to address those disparities by providing improved access to comprehensive sexual and reproductive health care services to those in need. We believe our involvement will significantly improve the availability and access to these important services in our service areas. If I may provide any additional information to you, please feel free to contact me at (b)(6) @realoptions.net or at 408-229-9836.

Sincerely,

Valerie Hill

Chief Executive Officer

Re: Letter of Commitment to implement a Voluntary Family Planning Project in Lebanon, Brownsville, Sweet Home, Halsey, and Scio, Oregon.

Dear Ms. Huber,

I would like to express my full support for The Obria Group, Inc. application for the FY 18 Family Planning Service Grants Opportunity to implement several “Voluntary Family Planning Projects” across the nation. The Obria Group is an umbrella organization for a national network of life-affirming community health care clinics. Currently, Obria affiliates are in California, Oregon, Washington, Iowa, Minnesota and Georgia. Obria affiliates are committed to providing comprehensive life-affirming sexual and reproductive health care services, health education, and supportive services to all individuals seeking quality healthcare regardless of their ability to pay. For over 35 years, Obria has maintained its mission of providing high-quality, innovative, and holistic sexual and reproductive health care services that will contribute to a healthy community, focusing on those in need.

Obria Medical Clinics/Pregnancy Alternatives Center in Oregon is requesting (b)(4) from the Office of Population Affairs to increase our services to include more extensive life-affirming comprehensive woman’s health care procedures and to increase the cities we provide these services.

Obria Medical Clinics/Pregnancy Alternatives Center is a 501 (c)(3) non-profit organization that provides a wide array of sexual and reproductive health care services in Lebanon, Brownsville, Sweet Home, Halsey, and Scio, Oregon including:

1. Sexual Risk Avoidance Education in our schools.
2. AAAHC Accredited Medical Clinic providing pregnancy decision consultations, pregnancy testing and care, ultrasound exams, care coordination and referral to community partners, health education to low income underserved individuals, and STD testing and treatment.
3. Pregnancy and Parenting Resource Center that provides Parenting and Prep for Parenting classes, one on one mentoring, and material assistance for both the mother and the child.
4. Restoration Ministries that provides sexual trauma support groups and one on one help.

Our mission is to provide medical and educational services to equip individuals to make healthy choices related to pregnancy, relationships, and parenting. We are an AAAHC accredited medical clinic and have impacted the lives of more than 30,000 vulnerable, uninsured and low-income individuals, mostly ages 14-25. Our brick-and-mortar clinic and state-of-the-art mobile medical clinic play a vital role in the

most underserved communities in Linn County. We serve low-income and vulnerable individuals in five different rural cities in Oregon.

In the event the proposed project is funded by The Office of Population Affairs, Obria Medical Clinics/Pregnancy Alternatives Center anticipates that we will be able to provide the following services:

<b>Pregnancy Testing &amp; Counseling</b>	<b>STI Testing &amp; Treatment</b>	<b>Well-Woman Care</b>
<b>Pregnancy Ultrasound Services</b>	<b>STI Risk Prevention Education</b>	<b>Breast &amp; Cervical Cancer Screening</b>
<b>Prenatal Care</b>	<b>HIV/AIDS Testing &amp; Education</b>	<b>Health Screenings</b>
<b>Pregnancy Prevention</b>	<b>Sexual Risk Avoidance Education</b>	<b>Parenting Education</b>
<b>Natural Family Planning</b>	<b>Contraception Education</b>	<b>Referrals to Medical Partners</b>

I fully support the efforts of The Obria Group and look forward to working with them in this important endeavor. We will work collaboratively with The Obria Group to ensure our goals are aligned with the goals of the grant proposal, including efforts to track and report on outcomes. There are many health disparities that continue to exist in our community. Obria and its affiliates are dedicated to address those disparities by providing improved access to comprehensive sexual and reproductive health care services to those in need. We believe our involvement will significantly improve the availability and access to these important services in our service areas. If I may provide any additional information to you, please feel free to contact me at (b)(6)

Sincerely,

Debbie Tracy, Executive Director  
Obria Medical Clinics/Pregnancy Alternatives Center

Re: Letter of Commitment to implement a Voluntary Family Planning Project in Pasadena and Whittier, California.

Dear Ms. Huber,

I would like to express my full support for The Obria Group, Inc. application for the FY 18 Family Planning Service Grants Opportunity to implement several “Voluntary Family Planning Projects” across the nation.

The Obria Group is an umbrella organization for a national network of life-affirming community health care clinics. Currently, Obria affiliates are in California, Oregon, Washington, Iowa, Minnesota and Georgia. Obria affiliates are committed to providing comprehensive life-affirming sexual and reproductive health care services, health education, and supportive services to all individuals seeking quality healthcare, regardless of their ability to pay. For over 35 years Obria has maintained its mission of providing high-quality, innovative, and holistic sexual and reproductive health care services that will contribute to a healthy community, focusing on those most in need.

Whittier Pregnancy Care Clinic (DBA WPCC-Obria Medical Clinics) is a 501 (c) (3) public benefit non-profit corporation that provides a wide array of sexual and reproductive health care services to the Pasadena and Whittier, California communities. Our Whittier clinic began serving women in the southeast area of Los Angeles County in 1991 and our Pasadena clinic began serving women in the northeast section of Los Angeles in 2014. Our typical patient, for either clinic, is college age, at or near federal poverty level, and of Latino or African American race/ethnicity. Since our inception, we have served over 10,000 women with medical services, material resources and essential referrals.

*Whittier Pregnancy Care Clinic (WPCC-Obria) is a medically licensed 501(c)(3) non-profit public benefit corporation. All tax donations are deductible to the full extent allowable by IRS tax laws.*

In the event the proposed (b)(4) funded by The Office of Population Affairs, WPCC-Obria Clinics funding request of (b)(4) will increase access for those in need in the cities of Pasadena and Whittier, as surrounding communities. We anticipate that we will be able to provide the follow s:

<b>Pregnancy Testing &amp; Counseling*</b>	<b>STI Testing* &amp; Treatment</b>	<b>Well-Woman Care</b>
<b>Pregnancy Ultrasound Services*</b>	<b>STI Risk Prevention Education*</b>	<b>Breast &amp; Cervical Cancer Screening</b>
<b>Prenatal Care</b>	<b>HIV/AIDS Testing &amp; Education</b>	<b>Health Screenings</b>
<b>Pregnancy Prevention*</b>	<b>Sexual Risk Avoidance Education*</b>	<b>Parenting Education*</b>
<b>Natural Family Planning*</b>	<b>Contraception Education*</b>	<b>Referrals to Medical Partners*</b>
<b>* These services are currently offered.</b>		

I fully support the efforts of The Obria Group, Inc. and look forward to working with them in this important endeavor. We will work collaboratively with The Obria Group, Inc. to ensure our goals are aligned with the goals of the grant proposal, including efforts to track and report on outcomes. There are many health disparities that continue to exist in the communities we serve. Obria and its affiliates are dedicated to addressing those disparities by providing improved access to comprehensive sexual and reproductive health care services to those in need. We believe our involvement will significantly ve the availability and access to these important services in our service area. If you require any additional information to you, please feel free to contact me at (b)(6) (cell).

Sincerely,

Jeanette Kuiphof

Letter of Commitment

May 18, 2018

Valerie Huber, Md.Ed.  
Acting Deputy Assistant Secretary for Population Affairs  
Office of Population affairs  
U.S. Department of Health & Human Services  
200 Independence Avenue, S.W.  
Washington, D.C. 20201

**Re: Letter of Commitment to implement a Voluntary Family Planning Project in Long Beach and Orange County, California**

Dear Ms. Huber,

I would like to express my support for The Obria Group, Inc. application for the FY 18 Family Planning Service Grants Opportunity to implement several “Voluntary Family Planning Projects” sites across the nation. For over 35 years, Obria has maintained its mission of providing high-quality, innovative, and holistic sexual and reproductive health care services that will contribute to a healthy community, focusing on those in need.

Obria Medical Clinics of Southern California is a 501 (c)(3) non-profit organization (EIN 33-0150193) that provides a wide array of sexual and reproductive health care services in Orange County and Long Beach California, and is currently an affiliate of The Obria Group, Inc, an umbrella organization for a national network of life-affirming community health care clinics.

In the event the proposed project is funded by The Office of Population Affairs, Obria Medical Clinics of Southern California’s (b)(4) funding request will increase access for those in need in our local area, and greatly increase our capacity to provide the following services--

<b>Pregnancy Testing &amp; Counseling</b>	<b>STI Testing &amp; Treatment</b>	<b>Well-Woman Care</b>
<b>Pregnancy Ultrasound Services</b>	<b>STI Risk Prevention Education</b>	<b>Breast &amp; Cervical Cancer Screening</b>
<b>Prenatal Care</b>	<b>HIV/AIDS Testing &amp; Education</b>	<b>Preconception Care</b>
<b>Pregnancy Prevention</b>	<b>Sexual Risk Avoidance Education</b>	<b>Parenting Education</b>
<b>Natural Family Planning</b>	<b>Contraception Education</b>	<b>Referrals to Medical Partners</b>

We will work collaboratively with The Obria Group, Inc. to ensure our goals are aligned with the goals of the grant proposal. Obria and its affiliates are dedicated to addressing the disparities in our local communities by providing improved access to comprehensive sexual and reproductive health care services to those in need. We believe our involvement will significantly improve the availability

and access to these important services in our service areas. If I may provide any additional information to you, please feel free to contact me at (b)(6) or (b)(6)@omcsocal.org.

Sincerely,

Clare Venegas  
Interim Executive Director

Re: Letter of Commitment to implement a Voluntary Family Planning Project in Port Angeles, Sequim, Port Townsend, Longview, Forks, Aberdeen/Hoquiam, Bremerton and Olympia, Washington.

Dear Ms. Huber,

I would like to express my full support for The Obria Group, Inc. application for the FY 18 Family Planning Service Grants Opportunity to implement several "Voluntary Family Planning Projects" across the nation. The Obria Group is an umbrella organization for a national network of life-affirming community health care clinics. Currently, Obria affiliates are in California, Oregon, Washington, Iowa, and Georgia. Obria affiliates are committed to providing comprehensive life-affirming sexual and reproductive health care services, health education, and supportive services to all individuals seeking quality healthcare regardless of their ability to pay. For over 35 years, Obria has maintained its mission of providing high-quality, innovative, and holistic sexual and reproductive health care services that will contribute to a healthy community, focusing on those in need.

Obria Medical Clinics PNW/My Choices is a AAAHC medically accredited, 501(c)(3) non-profit organization that provides sexual and reproductive health care service in Port Angeles, Sequim, Port Townsend, Longview, Forks, Aberdeen/Hoquiam, Bremerton and Olympia, Washington. Obria PNW services include pregnancy testing, obstetrical ultrasound exams, prenatal education, Sexual Risk Avoidance Education, pregnancy decision consultations, and referral to community partners, and health education to low income underserved individuals. The pregnancy and parenting education/resource program provides classes, one on one mentoring, and material assistance for both the mother, father, and the child. Additionally, Obria PNW provides support groups and referrals for emotional healing. From 1984 to present it has been the mission of Obria Medical Clinics PNW to impact the communities we serve through services, education, and resources that empower individuals to choices that affirm and support their lives. Thousands of individuals and families have been strengthened through the education and support they have received. It is the goal of Obria PNW to continue expanding our sphere of influence for the purpose of building a more healthy culture.

In the event the proposed project is funded in the amount of (b)(4) by The Office of Population Affairs, Obria Medical Clinics PNW/My Choices anticipates that we will be able to provide the following services:

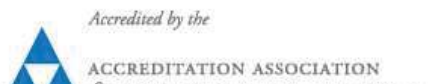

<b>Pregnancy Testing &amp; Counseling</b>	<b>STI Testing &amp; Treatment</b>	<b>Well-Woman Care</b>
<b>Pregnancy Ultrasound Services</b>	<b>STI Risk Prevention Education</b>	<b>Breast &amp; Cervical Cancer Screening</b>
<b>Prenatal Care</b>	<b>HIV/AIDS Testing &amp; Education</b>	<b>Health Screenings</b>
<b>Pregnancy Prevention</b>	<b>Sexual Risk Avoidance Education</b>	<b>Parenting Education</b>
<b>Natural Family Planning</b>	<b>Contraception Education</b>	<b>Referrals to Medical Partners</b>

I fully support the efforts of The Obria Group, Inc. and look forward to working with them in this important endeavor. We will work collaboratively with The Obria Group, Inc. to ensure our goals are aligned with the goals of the grant proposal, including efforts to track and report on outcomes. There are many health disparities that continue to exist in our community. Obria and its affiliates are dedicated to address those disparities by providing improved access to comprehensive sexual and reproductive health care services to those in need. We believe our involvement will significantly improve the availability and access to these important services in our service areas. If I may provide any additional information to you, please feel free to contact me at (b)(6)

Sincerely,

River Sussman

## Summary

Chief Executive Officer leveraging 35 + years of experience in delivering life-affirming services to women and families, Kathleen has developed a strong business model for pregnancy and reproductive healthcare clinics which seek to support the physical, emotional, psychological and healthcare needs of their patients and their babies.

Founded and shepherded six fully licensed community healthcare clinics called Obria Medical Clinics of Southern California (formerly Birth Choice) and The Obria Group, Inc. the umbrella corporation uniting clinics as affiliates under the trademarked Obria National Brand.

Constructed a network of high-powered supporters, including a former U.S. president, Washington lawmakers, Members of Congress, faith-based leaders and thousands of behind-the-scenes players. Led various task forces to strategically expand businesses at both a for-profit and non-profit level. Excels with moving a vision from concept to reality. Dedicated, well versed results-oriented leader who faces challenges and strives to consistently create new benchmarks to advance access to healthcare and more.

## Mission

Kathleen's lifelong mission to walk with young people experiencing the emotional turmoil that comes with making unhealthy sexual choices has fueled her passion to fight for the rights of families, mothers, and children.

## Experience

**Founder/CEO (2017 – Present) – The Obria Group, Inc; Obria Medical Clinics of Southern California, Inc. (formerly Birth Choice / Birthright); Toby's House Maternity Homes, Inc. and Toby's House Thrift and Gift Store; Teen Integrity Sexual Risk Avoidance Education**

Founded an umbrella organization under a Trademarked National Brand of Comprehensive Women's Healthcare Clinics operating throughout the nation.

Developed Obria Direct – a national Telemedicine/Telehealth App; to enable medical providers to reach young Millennials searching for medical treatment and provide healthcare services virtually.

The Obria Group currently has 23 brick-and-mortar affiliate clinic locations and 15 ready-to-operate virtual, telemedicine clinics across the nation in California, Oregon, Iowa, Georgia, Oklahoma, and Washington. As such, it is becoming a viable, life-affirming alternative to abortion providers on both a local and national level.

In 2013, under Kathleen's leadership Obria was competitively selected to receive a \$2.5M grant (\$500K renewable for five years) from the Catholic Campaign for Human Development a sub-committee of the U.S. Conference of Catholic Bishops. (b)(4)

(b)(4)

(b)(4)

Obria continues to build the necessary infrastructure to expand the model of life-affirming health clinics and make it more efficient and competitive

The program is projected to grow the number medical clinics under the Obria brand to 200 by the end of 2020.

# Kathleen Eaton Bravo

(b)(6)

C: (b)(6)

kathleen@obria.org

## **Founder/CEO (1981-2017) - Obria Medical Clinics (formerly Birth Choice /Birthright)**

Grew Birth Choice from one pregnancy resource center to four pregnancy resource centers (PRC) in 1986.

Conversion from PRC's to Obria Medical Clinics, Inc. in 2015 – to six fully licensed medical clinics in California, serving women and men, providing free STD testing and treatment, HIV/AIDS testing, ultrasound testing, pregnancy testing, pre-natal care, well-woman care, cancer screening, pap smears and UTI testing/treatment.

The clinics also have an educational arm which includes classes on Parenting, Fatherhood Mentoring, Sexual Integrity and Teen Integrity sexual risk avoidance program, Post-Abortion Healing, Crisis Counseling and Life Skills.

Started a “Bridge the Gap” education program to include life skills, mental health, domestic violence, parenting, and nutrition.

(b)(4)

90,875 patients.

As a result, the clinics have now seen more than

## **Founder (1990 – 2013) – Toby's House**

Founded Toby's House, a shelter for pregnant women and their children. Toby's House consisted of a beautiful group home in Southern California where pregnant mothers and their children could live for up to two years as they prepare for the birth of their child, find employment and independent housing as well as continue their education.

Opened three maternity homes – Toby's House, Inc. – for homeless women and their children. Received two HUDD grants / HHS Grant. The homes also had an Education Program and; Family and Individual Therapy Programs— (funded by DOJ grant).

Expanded volunteers from 20 to over 250; staff from 1 to 17.

## **Teen Integrity Program (Funding from HHS/ President G.W. Bush)**

Opened and operated a non-profit thrift store to support maternity homes and education Programs. Net profit: \$25,000+/per month.

## **(2005 –2010) – Toby's House Thrift and Gift**

Started Teen Integrity Sexual Risk Avoidance (Abstinence) program taught at clinics, shelters, local public and private schools as well as churches and youth groups throughout Orange County.

## **President/ Owner - (1986 – 2006) - ABS Design & Translation, Inc**

Established an international consulting and service provider company to medical device industry.

Wrote a VB program to convert bar code labeling into FDA approved multi-lingual guidelines for international distribution and provided to companies such as Medtronic, Tyco, J&J, and St. Jude's Medical.

Provided consulting services to manufacturing companies transitioning work force from U.S. to Mexico including the redesign of all packaging and labeling into multi-lingual FDA requirements using approved international symbols and guidelines.

# Kathleen Eaton Bravo

(b)(6)

C: (b)(6)

kathleen@obria.org

Provided international translation services in 32+ languages as well as full service graphic design support for IFUs, marketing and product labeling. On-site supervision for Medtronic for acquired companies—converted to Brand.

## **Director, Continuing Education (1981 – 1985) - University of Oklahoma Health Sciences Center**

Worked with the Chief of Staff of the University Health Science Center to assist in the planning, implementation and evaluation of CME activities for doctors across the country to obtain their CEU yearly. Responsibilities included on-site support for each program including attendance, the distribution and collection of evaluation feedback, faculty disclosure and commercial support acknowledgement. Assisted the COS with the re-accreditation process; conducted national classes, reviewed program files. Assembled syllabus; obtained and reviewed curriculum; scheduled speakers and facilitated each four-day seminar for the University.

## **Construction and Engineering Outside Plant Director (1974 - 1981) – AT&T/ Pacific Bell**

Supervised 250+ construction workers who placed and spliced cable throughout Orange County.

Supervised 35 Engineers and Building Industry Consultants responsible for the wiring and phone services for all high-rise buildings within the county.

Spent tour in San Francisco on loan to Corporate Office working in the Human Resources department rewriting Human Resources manuals on motivational training and Affirmative Action programs.

## **Education and Acclimations**

1971- 1973	Long Beach City College (AA) Business Administration
1974	Long Beach State University
1982	University of Oklahoma/ CE Courses

Orange County Register's Volunteer of the Year (2011)  
Pro-Life Person of the Year by the Catholic Diocese of Orange (2011)  
Cardinal John J. O'Connor National Pro-Life Award (2012)  
Susan B. Anthony List's Distinguished Leader Award (2015)

### PROFESSIONAL EXPERIENCE

THE OBRIA GROUP, INC.

*Executive Administrative Assistant*

*(2017- Present)*

- Provides administrative and business support to the CEO of The Obria Group, Inc. to assist in the development and expansion of the Trademarked National Brand of Comprehensive Women's Healthcare Clinics.
- Schedules and coordinates meetings, interviews, appointments, other similar activities. Supports on-boarding affiliates with documents, materials and other assistance as they transition into a fully licensed community healthcare clinic.
- Successfully supported the CEO in onboarding – clinics in California, Iowa, Georgia, Oklahoma and Washington.
- Composes and edits correspondence and proposals and grants for the CEO and staff.
- Works with the Marketing Team and COO on the development of the Obria.org and obriagroup.org websites.

**Other duties:** Attends conferences and meetings as requested, Assists the CEO with fundraising and development, the affiliate process, development of Telemedicine/Telehealth and new programs for the Obria Clinics. Coordinated the first annual "New Beginnings" conference for affiliates and their staff; scheduled speaker and coordinated hotel accommodations. Negotiates pricing for contracts, compiles information for the CPA, and assembles documents for the Governing Board and National Advisory Board as requested.

TUSTIN BODYWORK BISTRO – TUSTIN, CA; OC PHYSICAL MEDICINE - IRVINE, CA; GARCIA CHIROPRACTIC - TUSTIN, CA  
RICHMOND CHIROPRACTIC INC., - FOUNTAIN VALLEY, CA

*(2015-2017)*

**Marketing Director/ Patient Education**

- Created a Marketing strategy - including campaigns, events, digital marketing, and PR.
- Hired and Trained junior marketers by enabling them to meet their objectives by providing them with appropriate tools, materials and understanding to achieve competency. Guide the day to day activities of the marketing team. Ensure that the marketing objectives are implemented by the marketing team.

Worked closely with new patients, corporate clients and event coordinators of local events to ensure a full schedule of education events are planned. Managed social media presence and direct programs to improve social media reputation and recognition. Coordinated community events and in office events such as: Shop with the Doc, Dinner with the Doc., Girl's Night Out, Casino Night, Lunch and Learned and Pamper Days. Develop and deliver marketing and communications strategies for the organization. Undertakes continuous analysis of competitive environment and consumer trends.

SAN DIEGO EYE BANK – SAN DIEGO, CA

**Family Services Coordinator**

*(2012-2014)*

- Daily administrative duties entail interacting with the hospitals, hospices and other healthcare facilities in San Diego and Imperial Counties.
- Providing the opportunity for the families to make decisions about tissue donation and complete necessary FDA regulated paperwork.

CIA v. HHS 19-cv-624 – 000548

- Offer support, bereavement information and other resources to the family.

I have held a Consent Rate of 57%-78% on any given month. Streamlined less-than-efficient procedures for Still Alive Referrals and Pre-Consented Donors and boosted the productivity in my department for in-person consents. Opened the door to In-Person Consents with Hospice Patients.

#### RELIGIOUS MINISTRIES DEPARTMENT – US NAVY – SASEBO, JAPAN

##### **Protestant Director of Religious Education**

(2010-2012)

- Worked in collaboration with the all faith groups at CFAS Chapel in regard to ordering of supplies and budgeting.
- Implemented a resourceful library of Religious Materials available for the bible study groups to use and check out.
- Coordinated and Administered IHH Preschool and Sunday School Classes at Main Base and Hario Chapel.
- Performed duties as the Director for Vacation Bible School 2010 that held over 150 participants from the Hario and Sasebo community.

Administrative duties include work such as reviewing and choosing curriculum, maintaining records, preparing a budget, organization and supervising volunteers. Extra responsibilities included such as recruiting volunteers and organizing community events for Holiday programs.

Implemented and ran the CFAS Youth Group, In His Hands an Cooperative Part-Time Preschool and the Parents of Preschoolers on a Mission Ministry.

#### HARIO VILLAGE HOUSING OFFICE – US NAVY – HARIO, JAPAN

##### **Housing Manager Assistant/ Inspector**

(2010)

Duties included in my position involve knowledge of military information, inspecting units for move-ins and move-outs of government quarters. Daily maintained the appearance of the housing facilities and the surrounding areas within Hario Village. Worked closely with Area Manager for Sasebo Military Housing, solved complaints and handled disputes.

#### THE COMMUNITY COLLEGE FOUNDATION- Los Angeles, San Diego and Southern Riverside School Districts, CA

##### **1-2-1 Project Coordinator**

(2001-2010)

Promoted to Lead Tutor in 2005, when I collaborated with the Program Coordinator to create a strategic plan to enhance parent satisfaction with the 1-2-1 tutoring program. Trained and hired a total of 13 tutors who worked in two school districts in Northern San Diego County that serviced 60 students.

Promoted to Area Coordinator in 2006, managed a total of 26 tutors in 4 different school districts in San Diego County that is serviced over 180 students. In 2007 promoted to Project Coordinator; main contact for 10 school districts and manage over 30 tutors.

Worked closely with the Program Director to promote our services to other school districts, clarify information, and distribute reports and invoices. Helped contributed to increasing total number of youth that signed up for our services.

- Enhanced employee performance through bi-weekly training/mentoring, one-on-one discussions and strategies. As well as helping to create the companies' online database.
- Received outstanding positive comments from team members on employee reviews, as well as exceptional feedback from Program Director and School District Personnel.
- Planned to reach out to new school districts that could benefit from our program, promoted our tutoring services to parents during provider fairs and other community settings.
- Communicated with principals, teachers or other school personnel to help make sure that we created the best SLP for the student and to provide an additional assistance.
- Provided parents with other resources available to them after our services ended.

## **EDUCATION**

*Bachelor of Arts in Nonprofit Business Management/ Christian Counseling (Transferred to Liberty University) Not Currently Enrolled*

*CHRISTIAN COUNSELING CERTIFICATE (2011) LIBERTY UNIVERSITY*

UOP – San Diego, CA Undergraduate Studies (2003 to 2004) / IRVINE VALLEY COLLEGE – Irvine, CA

Form 990 required: Yes

Dear Taxpayer:

This is in response to your request dated Jan. 26, 2017, regarding your tax-exempt status.

We issued you a determination letter in October 2005, recognizing you as tax-exempt under Internal Revenue Code (IRC) Section 501(c)(03).

Our records also indicate you're not a private foundation as defined under IRC Section 509(a) because you're described in IRC Sections 509(a)(1) and 170(b)(1)(A)(vi).

Donors can deduct contributions they make to you as provided in IRC Section 170. You're also qualified to receive tax deductible bequests, legacies, devises, transfers, or gifts under IRC Sections 2055, 2106, and 2522.

In the heading of this letter, we indicated whether you must file an annual information return. If a return is required, you must file Form 990, 990-EZ, 990-N, or 990-PF by the 15th day of the fifth month after the end of your annual accounting period. IRC Section 6033(j) provides that, if you don't file a required annual information return or notice for three consecutive years, your exempt status will be automatically revoked on the filing due date of the third required return or notice.

For tax forms, instructions, and publications, visit [www.irs.gov](http://www.irs.gov) or call 1-800-TAX-FORM (1-800-829-3676).

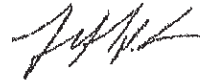

If you have questions, call 1-877-829-5500 between 8 a.m. and 5 p.m., local time, Monday through Friday (Alaska and Hawaii follow Pacific Time).
